CAMP ANDOVER CLOSES TOMORROW

Older Girls Hold Field Day. Farewell Supper Tonight
After Which the Camp Will Be Closed
for the Season.

The older girls of Camp Andover presented a pageant, "The Spirit of Camp Andover," as well as giving a fine exhibition of camp craft, games and swimming at their annual field day held on last Saturday. Many of the parents and friends of the girls availed themselves of the opportunity to see what was being accomplished and to inspect the camp for the first time.

The program included water sports, athletic stunts and group singing, directed by Clotilde Larbey of Eliot Congregational church, Roxbury, camp song leader. Miss Eugenia Parker of Winchester had charge of the program.

A pageant was staged in the glen, amid pines and birches, by a group of girls in costume, representing the spirit of Camp Andover. The cast was "Hope," Helen L. Luther, Second Congregational church, Dorchester; "Mirth," Fanny Adolphson, Christian Science church, Arlington; "Wealth," Elsa L. Haight, Congregational church, Allston; "Knowledge," Mildred Anderson, Second Congregational church, Dorchester; "Beauty," Jessie W. Cameron, Congregational church, Brighton; "Work," Esther Mateer, First Congregational church, Charlestown; "Health," Helen D. Sarty, Eliot Congregational church, Roxbury; "Love," Fortia Playfair, Emmanuel Congregational church, West Roxbury.

Miss Lillian Olsen of Concord, assistant camp counselor, directed the pageant.

Summary of water sports:

50-yard Dash—Won by Mary Starks, Winsted, Conn.; Louise Ramsever, Congregational church, Jamaica Plain, second.

Egg and Spoon Race—Won by Dorothy B. Jenkins, South Congregational church, Campello; Margaret Kates, Second Congregational church, Charlestown, second.

Clothes Dressing Race, 40-Yards—Won by Laura Perry, Phillips Congregational church, Watertown; Maybelle E. Fall, Congregational church, Hyde Park, second; Elizabeth Sweetser, First Congregational church, Winchester, third.

Tug of War—Won by Oakmans, M. Louise Oakman, All Souls church, South Braintree; Eleanor L. Marshfield, Hills Congregational church, Lexington; Harvard Congregational church, Dorchester; Irene Perry, Laura Perry, Phillips Congregational church, Watertown; Florence Gray, Second Congregational church, Dorchester; Sherman, Elizabeth Sherman, Baptist church, North Marshfield; Helen D. Sarty, Eliot Congregational church, Roxbury; Esther Mateer, First Congregational church, Charlestown; Clotilde Larbey, Eliot Congregational church, Roxbury; Dora R. Haughton, Baptist church, Stoneham; Margaret Degruchy, Episcopal church, Stoneham, second.

The farewell supper will be held this evening and the older girls will break camp tomorrow when the season at Camp Andover will officially be at an end.

FORTY-TWO SWIM A MILE

Boys and Girls Demonstrate What They
Have Learned at Camp's Pond
Swimming Beach.

Another eight-year-old girl, Betty Bodwell, daughter of Mr. and Mrs. Horace Bodwell of 71 Elm street, has accomplished the mile swim around Camp's pond this week. The honors are now equally divided between the Beers and Bodwells, three sisters in each family having swum over the mile course.

Practically every child who has been to the swimming beach with any degree of regularity has learned to swim, and forty-two of the number, thirteen girls and twenty-nine boys, have covered the mile course around the pond.

The complete list to date which is a great credit to their instructor, Frank McBride, is as follows:

Anna Beer, aged 8, Elm street; Elizabeth Beer, 13, Elm street; Mary Beer, 11, Elm street; Betty Bodwell, 8, Elm street; Isabella Bodwell, 15, Elm street; Ruth Bodwell, 12, Elm street; Margaret Buchanan, 14, Lincoln street; Mary Connelly, 12, Cuba street; Esther Corey, 12, Cuba street; Marion Elliott, 15, Summer street; Evelyn Fettes, 14, Brechin terrace; Emma Stevens, 15, Summer street; Mary Valentine, 14, Red Spring road; Richard Baker, 14, Buxton court; Abbott Batchelor, 11, Summer street; Alfred Bissett, 13, North Main street; James Craik, 14, Essex street; Woodrow Crowley, 12, Main street; Edward Dwyer, 14, Summer street; Wilfred Dwyer, 16, Summer street; Allen Edmonds, 14, Carmel road; George Forsythe, 14, North Main street; Cyrus Gates, 14, Gardner avenue; Andrew Jackson, 15, Ridge street; Henry Lefebvre, 13, North Main street; Roland Low, 13, Maple court; Tom Low, 13, Maple court; Frank McCarthy, 14, Red Spring road; Henry McCarthy, 12, Cuba street; Walter McCarthy, 14, Cuba street; Walter Milne, 10, Cuba street; James Mills, 13, Shawheen road; Alfred Morse, 15, Summer street; Chris Murphy, 15, Pearson street; Aubrey Polgreen, 15, Washington avenue; John Robinson, 14, Avon street; James Smith, 10, Barnard street; Carl Swenson, 14, North Main street; Dean Ward, 14, Washington avenue; James Wise, 15, Morton street; Morris Williams, 12, Main street; Jack Wright, 13, Holt road.

Mr. McBride is now working with a group of boys who are being taught how to remove their shoes and heavy clothing in case they were thrown into the water fully dressed and were obliged to swim some distance in order to save their lives.

Although the season at the swimming beach would naturally end with this week, because of the unusually long school vacation, Mr. McBride will probably continue for the present to be at the swimming beach every day.

LOCAL NEWS NOTES

Miss Laura Chandler of Elm street spent the week-end with friends at Hampton Beach.

Mrs. A. E. Moore of Marblehead is visiting her niece, Mrs. H. Winthrop Peirce, of Avon street.

Irving Whitcomb, has gone to Hatley, Quebec, where he will spend a two weeks' vacation.

Mrs. Lois Dow of South Lawrence is the guest of Mrs. Frank Valpey at her home on Summer street.

Deputy Chief Lester Hilton and Timothy Madden of the local fire department are on their annual vacations.

Misses Margaret Sweeney, Ruth Watson, Helen O'Brien and Agnes Hannon spent the week-end at Salisbury Beach.

Mrs. J. McNally, and Miss Anne McNally have returned home from a two-weeks' vacation spent at Hampton Beach.

Mr. and Mrs. Clarence O'Connell of Buffalo, N. Y., are visiting at the home of the former's parents on Chestnut street.

Harry Hyland, manager of the Family Shoe store, has resumed his duties after enjoying his annual two weeks' vacation.

Keir Sparks, permanent man at the Central Fire station, has returned to his duties after enjoying his two weeks' vacation.

Miss Florence Locke has returned to her home on Elm street after spending the summer months in Jamestown, R. I., and Peterboro, N. H.

Mr. and Mrs. Frederick E. Newton and daughter, Mary, leave town this week for Townsend, Vt., where they will make an extended stay.

Mr. and Mrs. George Hussey of Chestnut street and Mr. and Mrs. Herbert Russell of Wolcott avenue are at Lake George, having made the trip by automobile.

Harry and Miss Dorothy Slack, who have been visiting for the past two weeks at the home of Mr. and Mrs. Benjamin Hibbert of High street, have returned to their home in Montreal, Canada.

Dr. and Mrs. W. D. Walker who have been spending the summer in travel abroad returned to Andover on Sunday. They were accompanied by their daughter, Miss Helen Walker, who has been studying in England during the past year.

Mrs. Nathaniel E. Bartlett of Central street, accompanied by her daughters, Miss May and Miss Natalie Bartlett, will sail Wednesday, September 2, on the S. S. De Grasse, New York to Havre, for a year in France to be spent in travel and study. Miss Sally Bartlett will join her family in Paris, later in the month. The Bartlett residence at 59 Central street will be occupied during their absence by the family of Charles Morgan III of Philadelphia, Pa.

LOCAL NEWS NOTES

Mrs. Dominick O'Dowd of Elm street is spending the week at Salisbury Beach.

Miss Katherine Dolan of Avon street is visiting in Waterbury, Conn., for two weeks.

Mr. and Mrs. Charles Jenkins of Chestnut street is at Hampton Beach for the month of August.

Miss Grace Hulme of Cambridge spent the week with Katherine Donovan of Sunset Rock road.

Miss Elizabeth Reilly of High street has returned after spending two weeks with relatives in Buffalo, N. Y.

Miss Bertha Thomas, who is in the real estate business, is now located at Green Acres on South Main street.

Miss Esther Batchelder of the Merrimack Mutual Fire Insurance office is at Bar Harbor, Maine, for her annual vacation.

Miss Gertrude White, telephone operator in the local exchange, has returned after spending a vacation in New York.

Rev. A. C. Church, pastor of the Free church, preached Sunday in Fitchburg at the Rollstone Congregational church.

Bert Lyle and James Walker, a member of the local police department, have returned from an automobile trip through Maine and Canada.

Nathaniel Chadwick, clerk in the F. L. Cole clothing store, is on his annual two weeks' vacation. Roy Bowman is substituting in his absence.

Mrs. William H. Higgins of Chestnut street is spending two weeks at Swampscott. She is accompanied by Miss Catherine Barnett of Indianapolis, Indiana, formerly of this town.

C. B. Baldwin, formerly of this town, has bought a home on Bruce road, Winchester, in the Wedgemere section. Mr. Baldwin, who now lives in Cambridge, expects to move to his new location about October first.

Mr. and Mrs. Samuel Mayberry with their children, Dorothy, Gladys, Samuel Jr., and Winnifred, left for their home in Philadelphia, Pa., this morning after spending the week at the home of Mr. and Mrs. Stephen Gillard of Chestnut street.

Viola Cashman, clerk in O. P. Chase's periodical store, visited recently with Miss Emma Daniels at Pine Cone Tea Shoppe in Woburn, N. H. The Pine Cone Tea Shoppe is operated under the direction of the Essex County Republican women held at Salem Willows on Tuesday.

A charter has been granted to the Pender Farmhouse company of this town which will deal in automobiles. The concern is capitalized at \$25,000, and the incorporators are Herbert E. Pender, Lawrence; James Farnsworth, Andover; Frank S. Crawford, Andover; John S. Farrell, North Andover; John M. Longbottom, Lawrence.

LOCAL NEWS NOTES

Miss Grace Chapman of Wolcott avenue is at the White mountains for two weeks.

Miss Grace Larkin, clerk in the Jesse West bakery, is enjoying her annual vacation.

Miss Agnes Duval of Michigan is the guest of her sisters, Miss Effie and Miss Adele Duval of Wolcott avenue.

Mrs. Eben A. Baldwin who is spending several weeks at Biddeford Pool was in Andover over the week-end.

Mrs. J. Warren Berry has returned to her home on Chestnut street after a vacation spent in Bennington, Vermont.

Mrs. John Russell Carty, and son, John Russell Carty, Jr., are visiting Gen. and Mrs. John Carty, Penamquid Harbor, Maine.

Fred Keuhner, John Lewis and Miss Marie Daley of the local post office force are enjoying their annual two-weeks' vacation.

Frank McDonald, Francis Daly and Leo P. Driscoll have returned to their duties at the local post office after enjoying vacations.

The Misses Agnes Hannon, Ruth Watson and Helen O'Brien, operators at the local telephone exchange, spent the week-end at Salisbury Beach.

Mr. and Mrs. R. Hadley of Wolcott avenue have returned to their home after visiting their sons who are at Kennebunk, Maine, for the summer.

Rev. Frank R. Shipman who has been spending several weeks in Andover, left Monday night for Atlanta, Georgia, where he will make a two weeks' stay.

Augustine Sullivan, paymaster in the Smith and Dove Manufacturing company, has resumed his duties after enjoying an automobile trip to Maine and Canada.

W. H. Phillips, editor of the Oberlin News, Oberlin, Ohio, with his wife and family, was the guest Sunday of the Misses Davis at their home on Chestnut street.

Mr. and Mrs. L. E. Elliot and daughters of Summer street are spending two weeks in motor trips along the coast. During that time the store on Barnard street will be closed. It will reopen after Labor day.

Mrs. Sarah H. Spinney and Miss Julia B. Spinney of Shawheen Village and Mrs. Frank Valpey and Miss Margaret Leitch of Summer street were among those who attended the outing of the Middlesex and Essex County Republican women held at Salem Willows on Tuesday.

Clan Johnston held its regular business meeting in Fraternal hall last Friday evening and important business was transacted. A degree team will be entered in the Walter Scott competition which will be held in Boston at some date in September. The degree master will be William McKenzie. Chief William McDermitt presided over the meeting.

THIRD BAND CONCERT

Y. D. Band Led by Gerald Frazee Gives
Pleasure to Large Gathering. Last
Concert on September 4.

A beautiful moonlight night favored the sponsors of the band concert on Tuesday evening and brought out the largest gathering of the season to enjoy the program given by the Y. D. band of Boston led by Gerald Frazee, organist and choirmaster at the Free church.

This band was organized during the World War and is one of the finest of military bands. Radio listeners will recognize on the program the march "On the March" by Edwin Franko Goldman, conductor of the famous Goldman band of New York, seventy pieces, who broadcasts frequently through station WEEI, Boston. This is an extremely popular march and always demanded by the audiences who attend at the New York University Campus. The U. S. Marine band played it at the Sylvan Theatre, Washington, D. C., recently, and the applause was so insistent it had to be repeated.

The overture, "Orpheus" by Olenbach was recently played by the Grand Orchestra of the Capitol Theatre of New York via radio and other numbers on the program were equally popular.

The fourth and last concert of the season will be given on next Friday evening, September 4, by Bernard's band of Lawrence.

These concerts, the funds for which are raised by popular subscription, were started last season and have provided much pleasure and entertainment for many music lovers. Band music is enjoyed by everyone and the programs have been arranged to suit all tastes.

The park is an ideal spot for these concerts, having a central location, a fine band stand, and the beautiful lawns, walks and trees, provide a perfect setting.

Modern transportation is largely by automobile and here we have the four sides of the park for parking within hearing of the music. The bands that have played here are Ives Band of Boston, Salem Cadet of Salem, Waltham Watch of Waltham, McDonnells, Arlington Mills and Lawrence Cadet of Lawrence and all have rendered fine music.

The committee have already taken up with the Board of Public Works, the arranging of a board floor for the band stand which has been suggested by several of the band masters as a better sounding board than the present cement floor. It is expected this will be available for next season.

Contributions should be sent to W. C. Crowley, treasurer. The recent contributors to the fund are George B. Ripley, Dr. E. D. Lane, Charles Bowman, the Raspberry Club, Winslow Knowles, L. D. Sherman, R. H. Russell, F. H. Jones, F. N. Chandler, R. H. Bradford, Arthur T. Boutwell, B. E. Horne, Smith & Coutts, Mrs. Gertrude Bergstrom, M. E. Gutterston, J. H. Campion, Barnett Rogers.

"A day's work for a day's pay," time and a half for night work and pay for so-called "unproductive labor" are the demands of four hundred Smith & Dove operatives who claiming that they are not paid a living wage, went out on strike on Monday of this week.

A cut of ten percent on August first and the request to do more work for the same pay brought matters to a climax. According to the operatives, some of them have received four cuts, reducing their pay as much as thirty per cent. Girls are said to have worked four days a week for a dollar a day, and one person received \$5.36 for four consecutive weeks. One man with a wife and three children claimed that his pay had been reduced to only \$18.50 a week.

The glazers went out on Friday of last week, the bobbin boys on Monday and the entire mill on Tuesday. A mass meeting was held on the Playstead on Tuesday, at half past one, with Ernest Biotteau of the batch house and William Snyder, glazer, as chairman. Everyone was given a chance to air his or her grievances and many took advantage of the opportunity. The tenor of the meeting was on the whole good-humored, with a little sparring among themselves and some discussion of the fairness of the bosses, but with a determination to stand together and not return to work until the ten per cent cut was done away with and with "everybody's job back."

After a discussion lasting an hour and a half a committee of two persons from each department was chosen to confer with the management on Wednesday, and report at a meeting to be held on Wednesday afternoon. The members of the committee were as follows:

Batch house—Ernest Biotteau and Mr. Frazer.
Wet spinning—Bridget Coyle, Mrs. McCormack, Mrs. Smith, Archie Hood, Margaret McDermitt.
Flax preparing—Mrs. Eure, Mrs. F. Lynch and Josephine Meekin.
Doffing—Irene Gagne.
Balling—Anna McFarlane.
Damp spinning—Mrs. Gorrie, Mrs. Estes, Mrs. Keuhner.
Machinists—James Lynch, Kenneth MacDonald.
Shipping—Dan Sharp, Gilbert Waldie.
Reeling, wet spinning—Elizabeth Major, Doria Dumont.
Wet twisting—Julia Barton, Everett Ward.
Winding—Agnes Stewart, Nina McDonald.

Dry twisting—Hannah Donovan, John Rogers, Adeline Indeglia, Helen McCarthy, William Hatch.

Card room—Charlie Murphy, Mrs. Summers.
Inspecting—Mrs. McLeay.
Reeling, dry twisting—Lillian Donovan, Ida Donovan, Helen Poland.
Hacking—Alex David, Amos Henault.
Tow spinning—Edward Coffin, Mrs. Rita Hughes.
Dry twisting and winding—Anna Smith, Mary Burbine, James Sullivan.

COLONIAL THEATRE

Again has the inimitable Douglas Fair-
banks brought forth an example of photo-
plays that raises the standard of this newest
art to a lofty pinnacle. With consistent
and consummate artistry Mr. Fairbanks as a
producer has made a picture that possesses
a swiftly marching story of dramatic inci-
dents of steadily mounting interest, and with
the cheery dashing personality of the star
there is a worth added that magnifies the
production to true greatness. For this
reason Boston theatregoers have been throng-
ing the Colonial Theatre for the past two
weeks to attend upon the delights of "Don
Q," in which Douglas Fairbanks is pictured
as the hero of romantic adventures in the
land of old Spain.

In "Don Q" Mr. Fairbanks departs from
the realms of fantasy which invested with
such sublime charm his previous production,
"The Thief of Bagdad," and reverts again
to the fields of romance. He is seen as the
son of Zorro, the principle of
whose house is that the eldest son shall go
from their adopted land, America, to the
family homeland, Spain, to be educated.
Young Don Cesar, energized son of Castilian
blood through life among the active Calif-
ornians, adept in the handling of the long
bull-whip and with the sword, falls in love at
first sight with the strictly chaperoned
daughter of a Spanish General. His impetu-
ous pursuit of her brings him into adventures
that develop into quick complications that
fairly dazzle the mind with their speed.

Here is a condition truly Fairbanksian, and
it is treated true to type. There is the unex-
pected comedy identified with the ebullient
Doug, and there is the employment of his
athletic prowess and skill in performing
heroic deeds. It is the combination of all
these attributes that has made "Don Q"
the most popular of all this star's productions.
Only three weeks remain for the stay at the
Colonial of this production. Showings are
given twice daily, 2:00 and 8:20 p.m.

Go To Old Orchard Sunday

The popularity of the Boston and Maine's
excursions to Old Orchard Beach, which have
attracted 3700 people to that resort on two
week-ends, has caused another reduced rate
outing to be arranged for Sunday, August
30th. The excursion train will leave Andover
at 8:34 a.m. (Eastern Standard Time) 9:34
a.m. (Daylight Saving Time) with a reduced
rate of \$2.50.

Ample coach accommodations will be
provided again on the special train, the
schedules for which have been arranged to
take passengers from Boston, Lawrence,
Haverhill, Andover, Exeter and Dover. The
special train returning leaves Old Orchard
at 6:00 p.m.

To the public generally these reduced
rate excursions have proved a pleasant
revival of the railroad excursions of other days,
and have attracted motorists who seek travel
in safety and comfort for their week-end
outings.

THE ANDOVER TOWNSMAN

Looking Back Twenty-five Years

George Carter has entered the employ of
T. J. Farmer.

F. J. Hannon has purchased the E. C.
Pike barn which he will remove to the rear of
his house on Florence street.

Stained glass windows are to be placed in
position at St. Augustine's church at once.
All the windows have been subscribed for at
prices ranging from \$100 to \$150 each.

The Pray house which has been undergoing
repairs is about ready for occupancy. Elec-
tric lights, new plumbing and general
freshening have made almost a new house of
it. On the first of September it will be occu-
pied by Mrs. C. A. Shattuck and will be used
as a boarding house.

Judge Poor has returned from an outing at
Plymouth.

Roy Lindsay has returned from a visit at
the farm of M. A. Clement at Chester, N. H.

Dr. and Mrs. James Fuller have been the
guests of Mr. and Mrs. H. H. Tyler at Pigeon
Cove.

Miss Lila Gleason and Miss Bertha Hig-
gins left Tuesday for two weeks' outing at
resorts along the Maine coast.

Mrs. Charles McTernan of Danvers
visited her sister, Mrs. John S. Harnden, at
the latter's home on Florence street.

Mrs. Barnett Rogers returned last Sunday
from Salisbury Beach where she has been
spending a week. Mr. Rogers went down to
spend Sunday and to accompany his wife
home.

Calvin Wittet, the genial telegraph opera-
tor at the Boston & Maine station, enjoyed
the "salt sea breezes" at York Beach, Satur-
day and Sunday. During his absence, David
Burns renewed old acquaintances with the
telegraph instrument.

Charles B. Blunt is enjoying his vacation
this week.

Miss Kate S. Pike and Miss Lillian Pike
have been enjoying the pleasures of York
Beach.

Miss Abby W. Smart of Merrimack is visit-
ing her cousin, Miss Alice Bell, at the latter's
home on Elm street.

E. E. Trefry and Charles Bowman are
spending their vacation on a trip to Yar-
mouth, N. S., and the provinces.

Warren Berry of the firm of T. A. Holt
& Co. and Mrs. Berry have been away this
week at Yarmouth, N. S.

Miss Nellie Russell, assistant bookkeeper
at T. A. Holt & Co.'s store and Miss
Nellie Ritchie are spending their vacation at
York Beach.

Arthur Holt, bookkeeper at Smith &
Manning's store, is spending a week's vaca-
tion at the Sea View house, York Beach.

Joseph F. Cole and family have been spend-
ing a portion of the week at the old Cole
place in Boxford, in company with Wallace
Cole and family of Salem, N. H.

George B. Prescott, clerk at O. P. Chase's
news store, enjoyed a fishing trip to Glouces-
ter last Saturday. During his absence
Louis White filled his place.

Thomas Remington of Boston is spending
a portion of his vacation with his sister, Miss
Leonora, at the residence of Mr. and Mrs.
Darius Richardson on Chestnut street.

Invitations are out for the wedding at
Christ church, Springfield, August 27, of
Alfred E. Stearns, registrar at Phillips acade-
my, and Miss Kate Bell Deane; also for the
wedding at the Seminary chapel, Andover,
September 5, of Rev. William J. Long to
Miss Frances Marsh, daughter of Principal
Bancroft of Phillips academy.

A very quiet wedding was performed by
Rev. F. A. Wilson at the home of Mr. and
Mrs. Melburn on Brook street, when their
second daughter, Frances W., was married
to A. Henry Weeks of Somerville.

As usual the picnic of the West church at
Haggett's pond was much enjoyed. Follow-
ing is a list of the races and winners to whom
were awarded suitable prizes: Potato race,
Russell Abbott, first; James Gillen, second;
fancy bicycle riding for girls, Miss Lizzie
Wood, Lawrence, first; Miss Rose Edwards,
Lowell, second; doughnut race, James Gillen,
first; Chester Whitten, second; peanut race,
Miss Shaw, first; Marion Abbott, second;
slow bicycle race, Clarence Mosier, first;
race, George Phelps, first; Winthrop Bout-
well, second. The committee on sports con-
sisted of Rev. G. A. Andrews, Miss Kate
Pike, Winthrop Boutwell and Agnes Gillen.

There are beaches and beaches, but Old
Orchard is long enough and wide enough to
accommodate a million people and then have
some spare. The bathing facilities are
unparalleled, the diversions numerous, and
if you take advantage of the \$1.50 excursion
of the Boston & Maine railroad, you will
surely have a good time.

As the result of a quarrel over food at the
picnic of Harvard lodge, 1542, G. U. O. F., of
Cambridge, held at Shawheen Grove,
Ballardvale, George Davenport, better known
by his colored brethren as "Smoky," lies
dead, killed by bullet wounds in the face
and breast, and Edward H. Janifer, who did
the shooting is a prisoner at the Lawrence
jail, awaiting trial for murder.

Ballardvale

Miss Nettie Shaw is visiting relatives in
Bridgeport, Conn.

Miss Annie M. Downes and Miss Mary E.
Scott are guests for two weeks at the Fair-
mount House, York Beach.

John Derrah has accepted a position in
Lynn with the General Electric Co.

Miss Florence Simpson has been visiting
her cousin, Miss Hattie Holden in North
Billerica.

Mrs. Nathaniel Cutler of Norwood spent
Saturday with Mr. and Mrs. Timothy Love,
High street.

Closing of Summer School

A large number of people, young and old,
gathered at the Stowe, John Dove, and
Punchard school grounds to take part in the
closing exercises of the vacation school, either
actively or passively.

Out in back of the grounds between the
Stowe and John Dove schools were some in-
teresting features of the summer school's
work. One was the dog house with roof
thatched with straw, made by the boys out of
lumber from trees cut and hewed into shape
by themselves. Here was stationed Miss
Bessie P. Goldsmith with her two assistants,
Florence Collins and Helen Eaton, and on
exhibition for sale was cake made by the
children at their homes after having had
instructions in class by their teacher, Miss
Goldsmith. There were also for sale three
kinds of ice cream made by the children,
and cookies, bread and lemonade.

Close by was the vegetable table with the
products of the garden at the Guild house
raised by the children and in charge of
Harold Saunders, Willie Russell and Willie
Carey. The table with woven baskets was
well patronized as it deserved to be from the
workmanship displayed. Here were station-
ed Bessie O'Sullivan, Rose Russell and
Grace Downing.

In the basement of the Stowe school the
boys did carpenter work in the Sloyd depart-
ment, making bread boards, butter patties,
towel racks, kites, weaving machines and
many other articles.

Upstairs on the first floor was a class show-
ing the construction work in progress with
the girls weaving baskets of Indian grass. In
an adjoining room was the nature work where
collections of butterflies, beetles, and worms
were shown, the aquariums where the habits
of the fish are studied, and many other
things of interest.

On the second floor was stationed the
printery, where the excellent little paper
issued yearly by the boys was set up and
printed. The members of the different
classes whose articles were accepted for
publication in the school paper, called the
Summer School Record, were as follows:
Harold Saunders, Thaxter Eaton, Mary
Findley, Burnham White, Harry Lownd,
Anne Coleman, Helen Jenkins and Thomas
Welch.

In the John Dove school the younger
children's classes were found, the kindergar-
ten where the little tots were busy making
articles out of paper or at play. From four
until five an exhibition of the dancing class
in charge of Miss Perrin was given in Punch-
ard hall. Besides these classes there are
the swimming, fishing, and musical classes
which could not be exhibited to advantage.
This evening in Punchard hall will be given
a little play entitled "No Cure, No Pay,"
upon which the members of the dramatic
club have been at work for some time.

Prizes of books were awarded as follows
for excellence in the different studies:
Cooking, first, Bessie Ritchie, second, Annie
French; dancing, class, first, Mary Findley,
second, Rose Russell; drawing, first, Joseph
Connolly, second, Anne Coleman; gardening,
first, Willie Russell, second, Florence Collins;
nature (boys) fishes, first, Charlie Lord,
second, Homer Judge; butterflies, first,
Alex Haddon, second, Thaxter Eaton;
nature (girls), first, Helen Eaton, second,
Adelaide Klein; piano, first, Willie McCrea-
die, second, Annie French; printing, first,
Harold Saunders, second, Willie Russell;
swimming (boys), first, Rowland Lindsay,
second, Thaxter Eaton; weaving, first,
Charley Evers, second, Thaxter Eaton;
woodwork, B. O'Sullivan, Alex Ryley, Chas.
Lord, Thaxter Eaton; primary department
general excellence in first division, Burton
Stiles, George Lawrence, Gussie Conroy; in
second division, Dorothea Cole, Arthur
Gray, Blanchard Fry.

In the out-of-door contests the following
were the prize winners: running races for
13-year-old boys, first, Walter Thompson,
second, Clarence Pierce; 12-year-old boys,
first, John Hickey, second, Douglas Lindsay;
11-year-old boys, first, Frank Burns, second,
Charlie Eyer; ten pins, first, James Smith,
second, John Hickey; ring toss, first, Clar-
ence Pierce, second, Thaxter Eaton; fancy
bicycle race, first, Rowland Lindsay, second,
Fred Jewett; hoop race, first, Charles Evers,
second, John Hickey; potato race, first,
Douglas Lindsay, second, Willie McCready.

Ben Hyde Wins Game for Hardy & Ross

Ben Hyde proved the hero of the Hardy
& Ross and Peter Carr's clash on the Andover
Playstead Monday night, when he came to
bat in the last half of the sixth inning and
drove out a two-base blow, with two men on
base, scoring the only run of the entire
contest. Previous to the timely hit of
Hyde's no member of either team had
crossed the rubber, and the contest proved to
be one of the best of the season. Paul Dyer
allowed but five hits in six innings of play,
and Oscar Tahan and Macarone who did
the hurling for the Peter Carr's went him
one better by allowing only four hits.

In the last of the sixth, Doyle, who was
the first man to bat, went out on a grounder,
Daly to Scanlon. Nelligan, the next batter,
then placed a single to centre field, and went
to second when Souter did likewise. Ben
Hyde then came into the picture and broke
up the interesting clash by his timely blow
that would have been a three bagger, but it
registered as a double because it scored the
runner from second base.

Make It YOUR Bread

Make 20th CENTURY CREAM BREAD your bread. You will eat it day after day with increasing satisfaction. You'll enjoy bread more than ever before.

You'll find a lot of satisfaction in its perfect flavor, in its pure, sweet fragrance.

But most of all you will appreciate its assured purity, cleanliness, wholesomeness and dependability. Day in and day out, the high quality always remains uniform.

The full value in nourishment and satisfaction which you will get in 20th CENTURY CREAM BREAD makes it the most economical that you can buy.

Ford Announces Improved Line of Body Types

Body changes and chassis refinements more pronounced than any made since the adoption of the Model T chassis were announced here today by the Ford Motor Company. There will be no advance in price, it also was stated.

Outstanding features of the improvements in both open and enclosed types are lower all-steel bodies on a lowered chassis, complete new design in most body types, a change from black to color in closed cars, larger, lower fenders, newly designed seats and larger, more powerful brakes.

Longer lines, effected through higher radiator and redesigned cowl and bodies are apparent in all the improved Ford cars, but are especially pronounced in the open types. Wide crown fenders hung close to the wheels contribute to the general effect of lowness and smartness.

While Runabout and Touring Car remain in black, the closed bodies are finished in

harmonic color schemes, enhanced by nickel radiators. The Coupe and Tudor bodies are finished in deep channel green while the Ford is rich Windsor Maroon.

Greater comfort is provided for driver and passengers in both open and closed cars by larger compartments, more deeply cushioned seats and greater leg room.

Many new conveniences are also incorporated in the improved cars. In the Runabout, Touring Car, Coupe and Tudor, the gasoline tank is under the cowl and filled through an ingeniously located filler cap completely hidden from sight by a cover similar in appearance to a cowl ventilator.

One-piece windshield and narrowed pillars in the Tudor and Coupe offer the driver greatly increased visibility and improved ventilation.

Driving comfort is materially increased by lower seats, scientifically improved back rests and lowered steering wheel. Brake and clutch pedals are wider and more conveniently spaced.

Four doors are now provided on the Touring Car and two on the Runabout, permitting the driver to take his place from the left side of the car. Curtains, held secure by rods, open with the doors.

Most important in the mechanical changes are the improved brakes. The transmission brake drum and bands have been considerably increased in size which gives the foot brake softer and more positive action as well as longer life. The rear wheel brake drums are larger and the brake of self energizing type.

Cord tires are now standard equipment on all Ford cars.

At the main offices of the company it was stated today that production of the new line is under way in all assembly plants of the company throughout the country and the improved cars are being sent to dealers for showing.

The World's Best Tire Has Come to Andover

Frankly, we consider ourselves extremely fortunate in securing the exclusive selling franchise for

DAYTON Thorobred Cords

In Andover. We have always tried to give the finest possible service in every feature of our business. In offering our friends and public Dayton Thorobred we know that we're living up to our ideal.

It is our business to know what tires will or will not do. Our reputation, present business and future prospects depend upon giving you the best possible buy for your money. Dayton Thorobred Extra-Ply Cord is just that.

The pioneer of all low air pressure tires, they give COMFORT, of course. But they also give UNEQUALLED, long, trouble-free mileage—ECONOMY. So do Dayton Extra-Ply Balloons. Either type offers the finest possible example of the economy of quality.

If you can see the wisdom of Dayton's advice—"Figure the cost at the Finish"—come in, or call us on the phone, and let us tell you more about these dominant quality tires.

ICED DRINKS IN THE SUMMER

On a warm and sultry summer day, there is nothing more refreshing to the mind and to the body than an iced drink. Of course, when such drinks are being used, moderation should be practiced, because if taken in excess or too rapidly, they are liable to be injurious to the stomach. However, when taken in a sensible manner, they are refreshing and beneficial to the fatigued. In the manufacture of these drinks, care should be taken to avoid any combination that may be indigestible or hard to assimilate. The drink should be consumed in a slow and leisurely manner.

The greatest danger present in the use of iced drinks is the one that involves the use of ingredients that are possibly impure or contaminated in any way. This is very liable to happen if the juices that are used are allowed to stand until they become soured and unfit for use, or if the milk or other ingredient used is not strictly fresh. The predisposition of milk to spoil quickly at summer temperatures makes it oftentimes necessary to use evaporated milk, which after all is just pure fresh milk with more than half the water taken away. It is sterile and, therefore, always safe. For use in iced drinks, it is ideal.

Following are several formulas used in the manufacture of iced beverages. If these formulas are followed religiously, the results will be found to be very satisfactory.

Chocolate Malted Milk.
1 cup evaporated milk 3 teaspoonfuls cocoa
1 cup water 1 teaspoonful malted milk
Mix cocoa with water until syrup is obtained. Put all ingredients in Mason jar and shake thoroughly and serve with chilled ice.

Milk Punch.
1 cup evaporated milk 2 tsp. orange juice
Sugar to suit taste 1/2 cup water
1 cup tea 1/2 cup lemon juice
1/2 cup fruit juice (currant or berry preferred)

Boil slowly the cinnamon, a lemon rind and orange rind in water for ten minutes. Strain and when cool add the other ingredients. Place in a Mason jar and shake well. Serve in tall glasses with chopped ice.

Egg Nog.
1 egg 1/4 tsp. powd. sugar
Pinch salt 1/2 cup fruit juice
1/4 cup cold evaporated milk 2 tsp. fruit juice
1/2 cup ice water Nutmeg gratings
Add salt to egg white and beat to a stiff froth. Add the sugar, the well beaten yolk of the egg and the fruit juice and nutmeg. Fill glass with milk and cold water. Sprinkle top with chopped nuts.

Champion Wrestler Tells What to Eat

Johnny Meyers.

Johnny Meyers, middleweight wrestling champion of the world, is strongly in favor of the use of scientifically prepared foods. He prefers to know that the food he is eating is pure and wholesome rather than to take a chance with any kind of food poisoning by eating food from an unknown source. In a recent interview on the eve of his match with Lou Talaber, from whom he won his crown, he said: "I expect to win the crown from Talaber. He is a fine wrestler and uses more science than any man of the mat today. However, I feel sure that my superior physical condition will prevail and that I will emerge victorious and the champion of my division. Diet is a very important part of my program in training for a match. The system that I use is really very simple, involving only good judgment and caution in the selection of food. I prefer to eat scientifically prepared foods whenever possible and I never eat anything to which is attached the slightest doubt of its purity. I eat a great deal of canned foods because I am sure that they are pure and will have no ill effects on my digestive system. Take just as an example of what food can do for the body—milk. It is the greatest of body builders and a very important part of any man's diet. But is sometimes impure or contaminated and may be the source of illness if used. Because of this fact, I use evaporated milk entirely and find it very satisfactory. I know that it is pure and that I will not suffer from its use. I know that it is a great body builder because the concentration of it gives it such food value. I know that it is easily digested, more so than market milk, in fact, because I drink it before going to bed and feel no effects of it in the morning. This is usually hard to do with ordinary market milk. This plan, in substance, is the same one that I use regarding other foods. If there is any chance or suspicion of impurity or low food value, I use something else."

"And if a man is so situated that it is impossible for him to get the proper amount of exercise, he must be doubly cautious not to partake of any but the purest food. On the whole, if a man eats with wisdom and observes the fundamental rules for good health, there is no reason why he should ever have a sick or uncomfortable day."

KEEP CONTACT WITH M'MILLAN BY RADIO

New Short Wave Length Sending Is Success.

Washington.—"WNP" calling, will you relay a MacMillan message to the National Geographic society?"

The sender is John L. Reinartz, amateur radio "wizard," aboard the Bowdoin.

On the receiving end is an amateur radio operator—one day in New Brunswick, Canada; the next day at St. Petersburg, Florida; again out in Cleveland, and on some occasions in England.

For it is one of the interesting aspects of the MacMillan Arctic expedition which is using the new instruments of aviation and color photography that its news transmission also is by a method so new that it is yet experimental.

But the experiment is working—nightly, and also at midday—which is one of the new things about the new short wave length sending.

Even to the "listener in" the name Reinartz may be strange; but to every amateur, code-using radio operator the world over, the name Reinartz means a special "hook up." And these amateurs, whose amateur standing is attested and guarded by the membership in the American Radio Relay league, are on their toes to "catch Reinartz."

Reinartz has to his credit not only the development of a well-known receiving circuit, but holds numerous long-distance records for transmission of signals.

Keeps Clipping Waves' Length.

Reinartz' greatest accomplishment, however, was making possible the sending and receiving by amateurs, with inexpensive equipment, of waves shorter than the most powerful professional station could send a few years ago.

Mr. Reinartz was born in Crefeld, in the Rhine provinces of Germany, in 1894, and is of French extraction. After four years of schooling in Crefeld, he came to America at the age of ten, and settled in South Manchester, Conn., where he completed his schooling and has since made his home.

On leaving school he became a clerk in a drygoods store. He stood this one year, meanwhile dabbling with things electrical in his spare time. He had taken up this hobby while still in school in 1908, and with the assistance of some friendly telephone engineers—the telephone was then still in its hand-cranked days—had begun experiments in the infant radio field. Radio was then a matter of "coilers" and "de-coilers," and rather crude signals could be gotten over only limited distances with the equipment then available to amateurs.

After a year of clerking in the drygoods store, Mr. Reinartz became a clerk in the electrical department of a big silk mill. Each year he became more actively connected with electrical work, and prior to his recent selection to have charge of radio communication on the MacMillan expedition, he was in charge of electrical disposition in the mill.

When the crystal detector came in, Mr. Reinartz was one of the first amateurs to make use of it. With home-made transmitting and receiving equipment he kept up his experiments with fellow amateurs until America went into the World war. An accident at training camp incapacitated him and he spent the remaining period of the war teaching radio in a trade school, fitting men for the service which he had not been permitted to enter.

As soon as the war restrictions on radio activity were removed, Mr. Reinartz fell busily to work again at his radio experiments. By 1921 he had designed the Reinartz regenerative circuit, which he improved in 1922. This soon became popular with broadcast listeners in because of its simplicity of tuning and its sensitivity.

Amateurs "Talk" With France.

At this time "bands" of wave lengths were being allotted for various uses. The amateurs of one country were given a band near 50 meters, but by special arrangement they exchanged this band for one of much higher wave lengths, asserting that it was impossible to get as low as 50 meters. Reinartz believed that it could be done, and had been pegging away steadily reducing his wave lengths. Finally, in 1923, he reached 70 meters, the record at that time for amateurs. He explained his methods to a French amateur, De Loy, who had a station in Nice, and to officials of the American Radio Relay league in Hartford, Conn.

In October, 1923, the first two-way amateur communication between France and America was established with the equipment that Reinartz had designed.

After achieving 70 meters, Reinartz succeeded in August, 1924, in getting down to 40 meters and got the 40-meter signals through first to the Pacific coast and then to England, Scotland, France, Belgium, Sweden, South America and Australia. These were night signals. By October he was using 20-meter waves and at this remarkably short length or "high frequency" had established two-way communication at night with Santa Monica, Cal., from his home at Manchester, Conn. Until this contact Reinartz had the 40 and 20 meter field practically to himself.

The first daylight transcontinental transmission between amateurs was accomplished by Reinartz last December, the signals going through clearly at noon on 20 meters.

Practical Evidence Wanted

"John Marrows," said the farmer's wife, coming out to the back porch, where her husband sat tilted back in his chair, his feet on a railing, "didn't I hear you tell the parson when he was here that you had strong views on the temperance movement?"

"Yes," Mr. Marrows replied, rather stiffly. "I said so, and you know that I have."

"Well," said Mrs. Marrows, "suppose you go and express a few of them on the pump handle. I want a pail of water."

THE ANDOVER TOWNSMAN

ANDOVER MASSACHUSETTS

PUBLISHED EVERY FRIDAY

AT THE PRESS BUILDING BY THE ANDOVER PRESS

Entered at Andover Postoffice as Second Class Matter

Wider Highways

The following editorial, containing an ideal suggestion for controlling traffic going at different rates of speed, is reprinted from the Brookline Chronicle for August 20, 1925. The Townsman thinks that its readers will be interested in the plan advocated here.

The Washington Post states that it is not beyond bounds to say that every much-frequented highway should have a clear paved roadbed at least wide enough for six cars to travel abreast, three in each direction, and indeed, that none less wide than that can be considered convenient and safe. On such a road both slow and swift traffic can proceed without interference and there can be no question for that going in one direction to trespass upon the other side of the road belonging to that going in the opposite direction. Massachusetts needs wider roads. The state is constructing good roads, but most of them are barely wide enough to accommodate two cars. The edges where the macadam ends, are usually ragged and dangerous, since these ragged edges do much damage to tires. Building roads which barely give room to pass is a waste of good money and shows a lack of foresight. Subways are no longer being built according to the snake-like course of the old Tremont Street subway. If subway builders then could have properly visioned the future development of traffic, what a tremendous saving of money there would have been. Nowhere in Massachusetts is the value of good, spacious roads so clearly emphasized as in the city of Springfield. One does not have to drive out into the country to reach the open spaces there. The great open spaces are on the highways. One feels he can breathe easily and drive safely through Springfield. Here is an interesting suggestion thrown out by the Washington Post, in regard to roads of the future: "Suppose a concrete roadbed to be forty-eight feet wide, divided by the usual central seam into two roadways of twenty-four feet each, and each of these latter to be divided by real or imaginary lines into three equal strips, each eight feet wide. Then let slow traffic keep to the right and the swift traffic use the central strip, leaving the left hand strip unoccupied save on special occasions. Then, if on the first strip a car wants to go fifteen miles an hour, and the one in the front of it is going only ten miles, it can easily and safely get ahead by swinging over upon the second strip. Passing the slow car and then returning to the first strip. Similarly, if on the second or swift traffic strip, a car wants to go thirty-five miles and the one in front is going only twenty-five, it can get ahead by swinging out upon the third strip until it has passed it and then return to the second. Thus there would always be safe and convenient room for one car to get ahead of another without danger of collision with one moving in the opposite direction. It may be added that it should be made a penal offense for anyone to "hog" the road, by traveling off of the proper strip save when passing another car."

Courtesy a City Asset

The following article has been sent to the Editor by a well-known Andover citizen, who covets for travelers through his home town the same courtesy that is accorded them in the West.

One of the frequent complaints of the motorist, especially the long-distance tourist, is that as he enters a strange State or an unfamiliar city he is unfairly treated by traffic officers. If in his ignorance of local traffic rules he commits an unintentional error, he feels that he should be set right rather than be held up as a criminal—even if no arrest follows.

Minneapolis has adopted a system of traffic courtesy which has won the friendship of the tens of thousands of tourists who visit the Northwest. Every traffic officer is supplied with green cards, half the size of a postal card. As he stands at the street intersection he hands one to the driver of every car he recognizes as being from out of the city. The motorist, usually alarmed at the proceeding, thinking that he has received a summons for some violation of the traffic ordinances, finds when he has opportunity for examination this message: "Minneapolis welcomes you. The Mayor cordially invites you to the Tourist Information Bureau of Minneapolis, where you will be given a visitor's emblem for your car, conveying the official hospitality of the city together with touring information which may be helpful to you during your stay in the city and State." At the Bureau an efficient staff supplies maps, advice, and road information of every sort, assists in securing lodgings, and generally makes the stranger feel he is among friends who have a definite interest in his welfare.

The traffic officers themselves are expected to be helpful. One visitor relates that an officer held up traffic for minutes while explaining a rule innocently violated and aiding the distracted driver to set himself upon the proper course—and it was done with a smile. An added feature for the

present touring season is the establishment of mounted police at the city limits on the main concrete highways entering Minneapolis with instructions to stop every foreign car, present the driver with a courtesy card, and inquire if any assistance can be given that will make the stay in the city more pleasant. Free telephone stations at these points are the next step in the courtesy campaign.

Every city desires motor visitors. The thousands of free camp grounds established on the cross-country highways indicate an intention to attract them. Entering upon a definite system of courtesy is a step further and brings a new element into the motoring world. "Treat 'em rough" has been tried in more than one municipality. It is interesting to see the opposite policy have a chance. If the thousands of letters of appreciation that have come to the Minneapolis touring bureau are an indication, this plan already has paid large dividends in good will and in admiration for the city. More than that, according to the authorities, it has brought more careful driving and made the task of the traffic officers easier, for who would not drive with caution in a city where one received so kindly a welcome? Maybe the courtesy plan will become general and the tourist will feel that he is not friendless when outside his own community.—Outlook, July 29.

Editorial Cinders

The Townsman is pleased to note that the children were more quiet at the band concert last Tuesday. The police have discovered that the best way to keep the youngsters from making unnecessary noise is to make them sit down. This method worked quite well.

As chairman of the Pump's Pond Swimming Beach Committee, William C. Crowley is the man primarily to be credited with the commendable results being attained this year and the Townsman takes this opportunity to congratulate him. James C. Souther, who had charge of supplying the new bath houses with water, deserves to be complimented on the work he has done in that connection. Mr. McBride as guard and swimming instructor has been taking a great deal of personal interest in his work, and merits the thanks of the people for the way in which he manages the swimming beach and the success he is having in teaching children how to swim. Much has been done with limited funds. As a result, Andover now has a safe and desirable playground for its children. The Townsman hopes that further improvements in the facilities and grounds may be made next year so that Pump's Pond may be made even more attractive than it now is.

Thievery, burglary, pilfering; has there been a week lately when this town has been without one of these? During certain hours of the night there is but one police officer on duty here. And with those charming moonlight nights coming, when town economy demands that street lights be turned off, it looks as though our thieves were in for a little bit of paradise.

Important Game Saturday

As a result of the Court Lincoln and Peter Carr's game at North Andover Wednesday night ending in a forfeited game to the former, the Hardy and Ross team of this town will play them for the championship of the second half of the Intermediate league. Both these teams have won the same number of games, and on Saturday on the local playstead the deciding contests is to be played. Every contest between these rivals has been witnessed by large gatherings, but all attendance records are certain to go by the boards when they meet on Saturday.

Paul Dyer will in all probability be on the mound for the Hardy and Ross aggregation, while it is expected that St. Jean, the former Hardy and Ross twirler, will pitch for Court Lincoln.

Will Enter Bond Business

Reginald Whitcomb, oldest son of Mr. and Mrs. Monte Whitcomb of Main street terrace, commenced work Monday in the office of Jackson and Curtis, Bond company of Congress street, Boston.

He is a graduate of this year's class at Pynchard and at the class day exercises had one of the class parts. He has been successful in the dramatics of the school, being in several of the class plays. In athletics he managed the football team of last season.

The firm of Jackson and Curtis is an old established firm of bond brokers. Edmund E. Hammond of this town is one of the salesmen in this firm.

"Always At Your Call"

The Boston Globe, Monday, August 10, 1925

Household Department

JUNE GIRL—Although your letter was not written to me, I am interested in your letters to the sisters and certainly agree with your statements on table-linens and their laundering. My experience may be of a little help to the sisters who have small children, even as I have, and like to use their nice cloths, but dread the time and bother it takes to do them up properly.

I will admit that the more one has the less wear each individual cloth gets, and I was fairly well supplied. Incidentally I have entertained a lot and naturally have used my linens continually. Every week I have two cloths, dinner size, a tea cloth besides my bed linen, and often more if I have four extra, and then use my three-yard cloth.

I enjoy setting an attractive table and when we are alone take pains to have it look nice, as well as when we have company. People say: "How do you dare to send your linens to the laundry; they wear them out so." Well, I have had one tablecloth wear out in the six years I have been sending, and that was one I bought at a sale and it was only half linen. My cloths are initialed and they surely look splendid; a finish on them I could never attain, and in all those years see what hours of labor I saved. When the babies were smaller, and every mother will agree with me, I am sure, we all get mighty tired, and to stand at an ironing board for the necessary pieces taxes our strength enough.

One more little word to the doubters.

My chum was married a year before I was, but had more cloths than I did. She has always had a woman do her washing and ironing, and when I was on to visit her recently she didn't have a whole cloth out of all the lovely linens she started with, and when she came on last week to see me she was the most astounded girl to see mine. And I had sent mine to a laundry.

Go through a well-equipped laundry; they are glad to show people their methods. I don't own an interest in one nor does Mr. W. L. work for any laundry concern, though I don't hesitate to give credit where credit belongs. But I do feel that there are lots of mothers with small children who could save themselves all the work of keeping their linens done up well, but have been afraid to trust their precious supply to a laundry.

That Lawrence Toll Charge

A poll of telephone subscribers in Andover on the question of the Andover-Lawrence toll charge will take place within the next week, and, should Andover vote to return to its original state as a part of the Lawrence exchange, a later poll will be taken in Lawrence to determine the sentiment of Lawrence people.

The poll was agreed upon as the only solution to the problem Tuesday afternoon following a conference of Mayor Walter T. Rochefort and City Clerk Edward J. Wade of Lawrence and Chairman Frank H. Hardy of the Andover board of selectmen and William H. O'Brien, head of the telephone branch of the State Board of Public Utilities at the State House in Boston. A vote cast for the elimination of the toll charge, will probably mean higher rates in both city and town.

Andover people will vote on the question of elimination of the toll charge with the understanding that it will mean an increase of \$2.50 for Andover business telephone subscribers and of \$3.00 for residential telephone subscribers, the officials were informed. The telephone company insists upon a favorable vote of seventy-five per cent of the subscribers in favor of the change before dropping the toll charge.

The poll will be first taken among the telephone subscribers in Andover. If the change is defeated there, a poll will not be taken in Lawrence, Methuen, and North Andover. If the result is favorable to the change in Andover, then the poll will be continued among the rest of the Greater Lawrence subscribers.

The telephone company will have the necessary information and ballots printed and they will be mailed from the selectmen's office in Andover, to each subscriber.

The results of the poll will be referred to the Board of Public Utilities as the final arbiters in the matter.

Manager Fred G. Cheney of the local telephone exchange stated that he had "no information to give out at this time" when called this morning relative to the poll to be taken in Andover.

Programme for Country Fair and Garden Party

A Letter to Nature Lovers

The Andover Townsman, Andover, Mass.
Dear Sirs:
I would like to call to the attention of nature lovers, the gorgeous display of the cardinal flower that may be seen on the Shawshen River. It seems to be at its height now and the most profuse amount may be seen from the railroad bridge near the boat house to the pond at the Smith & Dove dam. On the right bank going toward the pond is a clump with not less than fifty blooms. To see this in the afternoon when the reflection may be seen in the water is worth the trip. It certainly speaks well for our people that they are not picking and destroying this beautiful flower but leaving it in its native haunt where it may be seen and worshipped in all its cardinal beauty.
Well up on the river near the canal to Pump's Pond may be seen a specimen that is almost white with just a tinge of pink. I certainly commend a canoe trip to the river at this time.

Sincerely yours,
G. EDGAR FOLK
Industrial Secretary

FOUR HUNDRED ON STRIKE

(Continued from page 1)

Failing to get an appointment to confer with the management as expected on Wednesday morning, the meeting held in the afternoon was brief. There was a little delay caused by the necessity of obtaining a permit for the use of the Playstead for such a purpose. The chairman reported that the management would meet the committee on Thursday, after which the gathering broke up with the intention of reaching the mill gate in season to "razz" the few "scabs" who were said to be working. A few missiles have been thrown, one being aimed at Overseer Lovejoy as he was leaving the mill on Tuesday, but it is the intention of the strikers as a whole to pursue their purpose without violence. The mill gates are picketed daily by both men and women.

On Thursday, the strikers marched in a body to the mill, and the leaders went into conference with the mill officials. Henry A. Bodwell, treasurer of the Smith & Dove company, stated at noon that the strikers had been told that on account of business conditions and the great competition in their line, wages could not be put back on the same level that they were before August first. This decision was reported to the operatives at a third meeting held on the Playstead Thursday afternoon. "Organizers" from out-of-town were present and the employees were advised to hire a hall where they could carry on their meetings with more privacy.

Dividends were passed on the preferred stock of the company in November, February and May, of the past year, but were resumed this month.

A Burglary a Week

A third burglary within a few weeks was reported to the Andover police on Saturday morning. The thief or thieves entered the bungalow of Mrs. Caroline Phillips at 5 Wolcott avenue, through a window at the side of the house and made off with a dozen silver spoons and other silverware.

The house was unoccupied at the time as Mrs. Phillips was substituting at the local exchange for a night operator. As it was one of the nights during the week when she was absent, it would indicate that the marauder was familiar with the habits of the occupant of the house.

It was reported that another house in the same neighborhood was entered the same night.

The houses of Lester E. Lynde and Herbert H. Vreeland on Main street have also been entered during the last few weeks.

Sunshine Committee Asks for Flowers

The Sunshine committee of the Courteous Circle of The King's Daughters which has been fulfilling its mission by carrying flowers to patients in the hospitals of the nearby towns asks the cooperation of those who have garden flowers which they would like to share with others. If such garden owners would kindly communicate with Mrs. C. J. Francis, 24 Central street, 435-W, the committee would know where to look for flowers to carry on their good work.

Patients who have been cheered by the sunshine scattered by this committee wish to express their gratitude to the flower growers who have made their pleasure possible. The visitors have carried flowers not only to Lawrence but also to Middleton where they find patients from Andover, who are very grateful for flowers grown in their home town.

Schools Reopen Next Month

St. Augustine's parochial school will be the first of Andover's schools to open its doors on September 8, the day after Labor Day.

Punchard High school will establish a new precedent by beginning in the middle of the week on Wednesday, August 29.

Monday of the following week, September 14, the primary and grammar grades will begin their sessions.

Wedding

ALLEN—WILLIAMS
A wedding of local interest took place in Franklin, Pa., recently when Robert Allen of Main street was united in marriage to Miss Florence Williams of that town. Mr. Allen formerly attended Phillips Academy where he was a prominent athlete, being captain of the track team. He also attended Harvard. Mrs. Allen is a graduate of Smith College.

Plan Whist Party

A monster whist party will be held in the fraternal hall on Monday evening under the auspices of Indian Ridge lodge of Rebekahs, and from present indications a capacity gathering will be on hand. The committee in charge have labored unusually hard to make the affair a success, and it is hoped that their efforts will be rewarded.

A door prize of \$2.50 will be given away to the lucky ticket holder. Tickets for the whist may be secured from the following committee members: Mrs. Edmond Dunwoodie, chairman; Mrs. Edward Emslie, Mrs. James Shea, Mrs. Frank Valentine, Mrs. Ralph Berry, Mrs. George Brown, Miss Annie Anderson and Miss Milly McLeod.

LOCAL NEWS NOTES

Mr. and Mrs. James Stewart, accompanied by their son, Joseph, and daughter, Mary, recently motored over the Mohawk Trail. They also visited relatives in Concord, N. H.

Mr. and Mrs. W. K. Rey of Springfield and Marshall Rey and Miss Anger of Pittsburgh, Pa., were recent guests at the home of Mr. and Mrs. John Allison Burr on Chestnut street.

Eather Colby of Salem street and Ruth Abbott of Main street are enjoying a trip that will include Buffalo, Niagara Falls, Quebec, and a tour through the White mountains.

Mr. and Mrs. Robert Anderson and Miss Margaret Anderson have returned to their home in St. Paul, Minn., after visiting at the home of Mrs. Minnie Rodger on Maple avenue.

Mr. and Mrs. Edward C. Carter and family spent the week-end at the home of the Misses Carter on Bartlett street, en route from Briarcliff Manor, New York, to their summer home in Boothbay Harbor, Maine.

Rev. A. C. Church will preach at the Free church on Sunday after being away from the pulpit for a few weeks. On September 6, Rev. Arthur S. Wheelock of Williamantic, Conn., former pastor of the church, will preach.

A whist party will be held in the K. of C. hall this evening by the joint organizations of Andover Council 1078, Knights of Columbus and Court Saint Monica, C. D. of A. Valuable prizes will be given the winners. The public is invited to attend.

To Be Married in Greenfield

Invitations have been issued by Mr. and Mrs. James Watson Manning for the marriage of their daughter, Arline, to Henry E. Stoughton, which will take place at the Second Congregational church in Greenfield on September 5.

Marriage

August 20, 1925, in Danville, Virginia, Howard Wadsworth Church and Bland Schoolfield.

Is Your Poll Tax Paid?

According to a statement issued by Collector of Taxes William B. Cheever Tuesday, more than one third of the poll tax payers of the town have not paid their taxes. The time allowed for payment of these taxes without extra charge expires Tuesday evening, September 1, at 8 o'clock.

All 1924 personal and real estate taxes, must be paid by October 15, 1925, under the law passed in 1923.

Legion Names Delegates

Ralph T. Berry, past commander, and Loring Higgins, were elected delegates from Andover, Post 8, American Legion, to the state convention which will be held in Boston on September 10, 11 and 12, at a meeting held in the Legion rooms on Tuesday evening.

The officers for the ensuing year are to be chosen at the state meeting, and other business equally important is to come before the body. The convention will open on Thursday, September 10, at ten o'clock, with a business meeting. A reception at 1:30 will follow and at three o'clock every one attending the convention is invited to the baseball game between the Braves and Philadelphia.

On Thursday evening at eight o'clock the military band will take place and already elaborate plans have been made for the event.

Friday, the day's program will commence with the business meeting in the forenoon, followed by a boat trip down Boston harbor. On Saturday, September 12, the business meeting at ten o'clock will open the activities for the day. In the afternoon at three o'clock a parade will take place through the business section of the city.

Booth Workers Selected

At a meeting of the general committee of Andover Council, 1078, Knights of Columbus, and Court Saint Monica, C. D. of A., in the K. of C. hall on Monday evening, the chairman of the various booths for the three days of the carnival to be held on the Playstead were selected, five energetic workers from Andover council and an equal number from Court Saint Monica being chosen.

Each chairman is to have the authority to select a corps of ten workers to assist in the discharging of the duties which devolve upon them. The chairman selected are as follows: John Cussen, James E. Greeley, Dr. J. J. Daly, Henry Dolan, Joseph Lynch, Miss Helen Lynch, Mrs. Joseph Lynch, Mrs. Frank S. McDonald, Mrs. Aubrey Polgreen, Miss Josephine Sullivan and Mrs. William Bracewell.

Further plans for the three-day carnival were discussed during the meeting, and at the present moment the affair gives promise of excelling the two previous carnivals that have been held. More booths will be erected this year, each giving more value for the money expended.

Plans were made for a whist party to be held at the K. of C. hall this evening.

Farewell Party Tendered

Mrs. Edward Lyall of Brechin, Scotland, was the guest Tuesday evening at the home of her niece, Mrs. Edward Emslie of High street, when a farewell party was tendered her. Mrs. Lyall has been visiting in this country with relatives in Springfield, Holyoke, Chicago, Detroit and New York. She will sail for her home in Brechin, Scotland, on September 19.

Reminiscences of the cathedral city on the banks of the South Esk were brought back at the party, and many stories were told of the celebrities and accomplishments of the ancient city.

At the conclusion of the story telling, refreshments were served by the hostess. Among those present were Mr. and Mrs. William Bushnell, Mr. and Mrs. Albert Law, Margaret Law, Mr. and Mrs. David Coutts, Mrs. William Middleton, Mr. and Mrs. John Bushnell, Charles Porter of North Andover, Mr. and Mrs. James Johnston, North Andover, David McIntosh, Mr. and Mrs. David McDonald, Mrs. Annie Cuthbert, Mr. and Mrs. Edward C. Emslie and Edward Emslie, Jr.

Princess Robenstroeke Reaches Andover

Princess Robenstroeke, late of the Russian nobility, who has been in this country since the World War has been secured by the committee of the Country Fair and Garden Party to appear in her native costume, September 16.

Her gifts of prophecy are amazing and her personal beauty most exceptional. Best of all she has never failed to tell the truth.

The committee feel most fortunate and guarantee all fortunes told to be pleasing or money refunded!

It's an open secret that they are counting on many gentlemen being so dazzled at having such a lovely lady hold their hands that they won't even remember to accept the change from a five dollar bill. Gentlemen, take notice please!

Accepts Position as Teacher

Everett Lawrence, son of Mr. and Mrs. J. Edward Lawrence of Lewis street, has accepted a position as instructor in biology and chemistry in Tougaloo College at Tougaloo, Mississippi, and will commence his duties there on September 15. Mr. Lawrence graduated from Bates college, Lewiston, Me., last June, receiving a degree of B.S. in chemistry. He is employed for the summer months at the Bellevue hotel, Boston.

Mr. Lawrence graduated from Punchard High school with the class of 1921 and entered Bates college the following year. While at Punchard he was a member of the football and baseball teams. Mr. Lawrence has many friends in this vicinity who will be pleased to learn of his success.

Wins Shooting Prize

Walter Markey, son of Mr. and Mrs. Peter Markey of Chestnut street, who is spending the month of August at the Citizens Military Training Camp at Camp Devens, proved himself to be very proficient in the shooting contest that was held at the camp on Saturday, being awarded third prize in Co. C, First Battalion. A bronze medal, suitably inscribed, was presented to young Markey at the conclusion of the day's shoot.

Peter Markey, father of the boy, was present to witness his son hit the target forty-two times out of a possible fifty.

Married Men Downed

In the tennis match between the married men and the single men of the Merrimack Mutual Fire Insurance company, the single men were victorious by the scores of 6-4 and 9-7. Franklin Belcourt, and Malcolm Ruhl represented the single men while Charles Cole and Edward Nichols comprised the married men's team. The elimination contest to decide the champion player of the company will be held at a later date.

Children's Heart Tag Day

A great many folk opened their hearts and purses on Saturday to help the destitute women with children and other unfortunate in care of the Volunteers of America by contributing the sum of \$96.56 to that worthy cause. Every one connected with the affair was deeply grateful to all who in any way helped make the day successful.

A statement issued by the organization's representative says: "To the city officials, the newspapers, the merchants who furnished the incentives for the children's efforts as well as to Miss Olive Warden's capable leadership full credit should be given; neither must the public's generosity in patronizing the youthful workers be omitted. From early in the morning until late in the afternoon each of the girls and boys played the merry game of 'competition' for the prizes and movie tickets and at the close of the 'contest' it was found that Gertrude Dyer was entitled to the first prize, an autograph album, having collected \$20. The second, a necklace, was won by Isabella Batchelder, who had \$7.23. Bessie Monroe had \$6.53, and received the third prize, a pencil. The other children were made happy with the movie passes.

Local persons who sponsored the drive were: Rev. F. A. Wilson, Mrs. Colver J. Stone, Mrs. James Kyle, Mrs. Albert G. Flint, and Mrs. Frank A. Buttrick.

Miss Olive Warden was in charge of the office at the Town hall.

Mrs. Bigelow an Officer of Conference

Mrs. E. Vivior Bigelow has been appointed general chairman of the Women's Organization of the Congregational conference for 1925-1926.

The conference closed this week after a two weeks' session at the Isles of Shoals. Mrs. Eleanor Brooks Gulick formerly of Andover was secretary of the conference this year and will be next year, the officers chosen for the coming months being as follows:

President, Dr. Edward D. Eaton, Wellesley, Mass.; vice presidents, Professor Irving F. Wood, Northampton, Mass.; Professor Henry H. Tweedy, New Haven, Conn.; Rev. W. K. Bloom, New York city; executive secretary, Mrs. Eleanor Brooks Gulick, Wellesley, Mass.; recording secretary, Miss Barbara L. Black, Hartford, Conn.; treasurer, C. W. M. Blanchard, West Medford, Mass.; directors, 1925-1926, Rev. William E. Barton, Foxboro, Mass.; Rev. W. E. Gilroy, D.D., editor The Congregationalist, Miss Elsie Thayer, Hartford, Conn.; Miss Ellen Patten, Dorchester, Mass.; Mrs. Frank Holyoke, Holyoke, Mass.; Miss Elsie D. Fairbanks, Manchester, N. H.; Mrs. Rudolph Lippold, Jamaica Plain, Mass.

Women's Organization—General chairman, Mrs. E. V. Bigelow, Andover, Mass.; vice chairman, Mrs. Frank Holyoke, Holyoke, Mass.; secretary and treasurer, Mrs. A. A. Briggs, Haverhill, Mass.

Porter Given Watch

During the baseball game between the Hardy-Ross and Peter Carrs on the local Playstead Monday night, Henry Porter, popular manager of the Hardy and Ross baseball team, was presented with a gold watch by the firm of Hardy and Ross, as a token of esteem. The watch of Waltham make, was presented to Porter by James Ross, in the fourth inning of Monday's game, amid the loud applause of the spectators.

Manager Porter has been signally successful with the team this year, and much of the credit for their success is due him.

Auto Ride Last Night

An automobile ride to Salisbury Beach was enjoyed Thursday evening, under the auspices of Andover lodge, 230, I. O. O. F. The machines left Fraternal building at six o'clock. At the beach a band concert and fireworks were the special attractions.

The committee in charge of the automobile ride consisted of the special entertainment committee of Andover lodge, which is as follows: Herbert H. Ford, chairman; Claremont I. Gray, Harry Pentman, Harry Thomas, Bertram S. Stott and Ralph Berry.

Miss Eva Burtt is visiting her brother, Edward A. Burtt.

Miss Flora Ellis of the Bailey district is at her home for a few days' visit.

Mrs. Mary S. Cutler is visiting her son, Granville K. Cutler of Lowell street.

The next Grange meeting will be Home Economics night. A good program is planned.

Miss Ebba Peterson and a friend are enjoying an auto vacation trip over the Mohawk Trail.

Miss Dorothy A. Lewis has returned from a two weeks' vacation spent at her sister's home in Saugus.

Misses Bessie Carter and Mabel Darling, enjoyed an auto trip to Lake Winnepesaukee for the week-end.

Batter-boards are up and a cellar is being dug for a new house on Shawheen road opposite the Cunningham home.

Richard Carter is at his home on High Plain road, having returned from a week's visit at Torrington, Connecticut.

Miss Grace Ganley of Washington, D. C. is visiting for two weeks with her sister, Mrs. Philip Moor of Lowell street.

Mr. and Mrs. Merrick, and Misses Florence and Lillian Pike visited Rev. Mr. and Mrs. Matthews at Plum Island this week.

Mr. and Mrs. Herbert Carter and little Miss Betty Carter were guests of Mr. and Mrs. Walter F. Rutter of Holden recently.

Andover Grange met on Tuesday with an attendance of thirty. Routine business filled the first hour, then a social time with cards and neighboring was enjoyed.

Mrs. Lizzie Morgan, who will be remembered by West Parish people as a former owner of the farm now owned by Freeman Abbott, visited Mrs. Sarah Wagstaff for the week-end.

Middlesex-North Pomona holds a Field Day at North Tewksbury on September 8. This meeting will be held with annual Fair of that section. Essex Pomona members may compete for any of the prizes offered. A Clam Bake is to be held at six o'clock, followed by a Band Concert. Essex Pomona members are especially invited to be present.

Mr. and Mrs. Ira B. Hill, Samuel H. Bailey, Mr. and Mrs. George Ward, Mrs. Herbert Lewis, Miss Madeline Hewes, George M. Carter, Mr. and Mrs. William B. Corliss and Misses Helen and Wilma Corliss attended the clam bake held by North Andover Grange at Grape Island on Wednesday. The day seemed made for the party and no accident marred the enjoyment of those attending, the verdict of all being "the best ever."

Principle of Association

The difference between men is in their principle of association. Some men classify objects by their color and size and other accidents of appearance; others by intrinsic likeness, or by the relation of cause and effect. The progress of the intellect is in the clearer vision of causes, which neglects surface differences. To the poet, to the philosopher, to the saint, all things are friendly, all events profitable, all days holy, all men divine. For the eye is fastened on the life and lights the circumstance. Every chemical substance, every plant, every animal in its growth teaches the unity of cause, the variety of appearance.—Emerson.

BALLARDVALE

UNION CONGREGATIONAL

Rev. A. H. Fuller, Pastor

10.30. Worship with sermon by the pastor. Sunday School to follow.

6.15. Christian Endeavor.

7.30 Wednesday. Prayer meeting.

METHODIST EPISCOPAL

Rev. Clifford W. Reynolds, Pastor

10.30. Worship with sermon by the pastor. Sunday School to follow.

7.04. Union service.

7.30 Wednesday. Prayer meeting.

Herman Pfeiffer spent the week-end in Athol.

Jeanette Grant is spending a few days in Athol.

Ralph Biggar is enjoying his annual vacation.

Fred Buckley spent Sunday at York Beach, Me.

Miss Alice Coates spent Monday with relatives in town.

Marjorie Ormsby is spending a few days visiting in the Vale.

James Caffrey of Lawrence spent Sunday with friends in town.

Rev. and Mrs. G. R. Moody are spending two weeks at Grafton.

The Pathfinders of the Methodist church will meet this evening.

Miss M. J. McKen is spending a vacation with relatives in Maine.

Mrs. Mary Herrick has been visiting at Winchester and Woburn.

Mr. and Mrs. Bancroft Haynes spent Tuesday at Salem Willows.

Gavin McGhie and Joseph Clinton spent Sunday at Old Orchard, Me.

Mr. and Mrs. George Bruce spent the week-end at Hampton Beach.

Mr. and Mrs. Phillip Stafford and family spent the week-end in the Vale.

George Keating of Boston is spending a few days with relatives in town.

Mr. and Mrs. Roy Haynes spent Sunday motoring along the North shore.

Mrs. John Riley and Miss Grace Riley have returned from Hampton Beach.

Mrs. Arthur Fairbanks of Jamaica Plain is the guest of Miss Helen Moody.

Mr. and Mrs. Hunt English have been entertaining relatives from Vermont.

The Misses Helen and Annabelle Steed are spending a vacation at Oak Bluffs.

Miss Alice Coates spent Monday with her parents, Mr. and Mrs. Oliver Coates.

Mr. Harry Revier spent Sunday with Mr. and Mrs. Walter Crook, Clarke road.

Mr. and Mrs. Arthur Whitley of Jamaica Plain spent the week-end with relatives in town.

Mrs. John Riley and Miss Grace Riley have returned from a stay at Hampton Beach.

Mr. and Mrs. William Clemons spent Sunday at York Beach, Me., and Portsmouth, N. H.

Mrs. Ralph Harlow and children left Saturday for Oak Bluffs, where they will spend the week.

Mr. and Mrs. Arthur Whitley of Jamaica Plain spent the week-end with Mrs. Mary Trow, River street.

Mr. and Mrs. Al. Bush of Pittsfield, were former residents of this town.

Sunday morning, Gordon MacMaster spoke at the Congregational church on the work of the anti-saloon league.

Mrs. Fred Bottomley of Haverhill has returned to her home after spending a week at the home of Mr. and Mrs. Daniel H. Poor.

Mr. and Mrs. Gordon Hood of Manchester are rejoicing over the birth of a son. Mrs. Hood was formerly Miss Louise Coates of this town.

Chief Electrician Hunter V. Scrivener, U. S. N., who has been confined to the Chelsea Naval hospital, spent Wednesday at his home in town.

Mrs. Ida Buck, Miss Mildred Buck, Mrs. James Schofield and son, Arnold, returned Sunday after spending two weeks at Biddeford Pool, Maine.

Fred Wrigley has opened a variety store at the corner of Tewksbury and Center streets. This will be a great convenience to people in that neighborhood.

Mrs. Henry Buckley and Miss Sarah Andrew are spending the week with Mr. and Mrs. Charles Hill of Marblehead. Miss Andrew recently arrived on the S. S. Samaria from England, where she spent the past six months.

The Ladies' Aid society of the Congregational church held an all-day outing at the home of Mrs. N. H. Harwood on River street, Thursday. The party met at Mrs. Harwood's about 10.30. Dinner was served to the guests at one o'clock.

Ballardvale Lodge, 105, met Monday evening in Good Templars hall with the chief templar, Mrs. Hadley Davison, presiding. One candidate was initiated. James Fee won the mystery prize. Next Monday evening the brothers will entertain the sisters.

Given Farewell Party

Miss Marion Fillian who is planning on entering the Boston City hospital, September 1, where she will train for a nurse, was pleasantly surprised by her many friends Saturday evening, at which time games, dancing and singing were enjoyed. A "specialty dance," was given by Miss Edith Moss and Miss Helen Sullivan of Wakefield, Misses Mary and Rita Bell did the Sailors' hornpipe, and Misses Edith Wrigley and Grace McKen the buck and wing dance.

Miss Fillian was the recipient of many beautiful and useful gifts. Refreshments were served by the hostess.

Among those present: Mary and Rita Bell, Mary and Grace McKen, Rita and Esther Trow, Edith Wrigley, Edith Moss, Katherine Trow, Anita Wells, Helen Sullivan of Wakefield, Margaret Ward, Mr. and Mrs. J. Fillian.

Annual Picnic Held

At 10.30 a. m. Saturday morning two auto trucks of members and friends of the Methodist church Sunday school left for Salem Willows, where a day's outing was enjoyed.

They arrived at the Willows about noon and started to enjoy the amusements. Some went bathing, while others took a motor boat ride around the bay.

Each carried a basket lunch. At seven o'clock, all left for home well satisfied with the day's outing.

Among those present were: Ernest and Earl Downes, Charles Fairweather, Ida Litchfield, Louise Litchfield, Harold Baker, Robert Baker, Raymond Kealey, Gladys Noble, Robert Kibbee, Mrs. Leonora Hammond, Mrs. Lawrence and family, Mrs. Mary Simpson, Mrs. Hayley Davison, George Davison, Mrs. J. L. White, Thomas Lawrence, Mrs. William Matthews, Miss Ada Matthews, Mr. and Mrs. Harold Petty, Florence Petty, Mr. and Mrs. Fred Sanborn, and Charles Sanborn, Mrs. Sarah Sleath, Ethel Howell, Mrs. Fred Wrigley, Mrs. Gordon, Mrs. Prudence Brown, Carl Wells, Mrs. Harry Wells, Florence and Ruth Wells, James Bissett, Ina Bissett, Peter Bissett, Harriet Kibbee, Rose Early, Henry Kibbee, Alice Kibbee, Beatrice Early, William Benson, Mrs. Frances Benson, Margaret and Francis Benson, Caroline Greulich, Margaret Bell, Mrs. Stenford, Mrs. Nichols, Budie, Mrs. Helen, and Ruth Nichols, William Frazer, Frances Allen, Hazel Allen, Eva Kibbee, Beatrice Kibbee, Helen Kibbee, Mr. and Mrs. George Brown and George Jr., and Shirley Brown, Mr. and Mrs. John Brown and Arthur Brown, Mr. and Mrs. Joe Stanley, Ruth Stanley, Ben Nason, Charles Nason, Eddie Hasty, Mrs. S. Walker, Mrs. Maggie Adams, Rev. Clifford Reynolds, Mr. and Mrs. E. W. Brown and son, Andy Coffin, Mrs. Farrell, Jane Hudson and Mrs. Ben Summers.

Mr. and Mrs. Arthur Whitley of Jamaica Plain spent the week-end with Mrs. Mary Trow, River street.

Mr. and Mrs. Al. Bush of Pittsfield, were former residents of this town.

Mr. and Mrs. Arthur Whitley of Jamaica Plain spent the week-end with relatives in town.

Mrs. John Riley and Miss Grace Riley have returned from a stay at Hampton Beach.

Mr. and Mrs. William Clemons spent Sunday at York Beach, Me., and Portsmouth, N. H.

Mrs. Ralph Harlow and children left Saturday for Oak Bluffs, where they will spend the week.

Mr. and Mrs. Arthur Whitley of Jamaica Plain spent the week-end with Mrs. Mary Trow, River street.

Mr. and Mrs. Al. Bush of Pittsfield, were former residents of this town.

Mr. and Mrs. Arthur Whitley of Jamaica Plain spent the week-end with relatives in town.

Mr. and Mrs. Al. Bush of Pittsfield, were former residents of this town.

date was initiated.

The mystery prize won by James Fee. At the close of the business session one of the most enjoyable socials held in the lodge rooms for some time was enjoyed by members and friends. The social was in charge of Mrs. Hadley Davison assisted by Mrs. Ernest Rollins, and was called a musical social. Guessing contests proved to be most interesting. Mrs. Ernest Rollins played parts of a number of musical selections, those present guessing the names of the pieces played. Mrs. Frances Benson was the winner in this contest. Community singing was led by Rev. Clifford W. Reynolds and Harold Wells accompanied on the piano. A feature of the occasion was "Susie's Band." The members were attired in various costumes and rendered numerous selections. The members of the band included: Mr. and Mrs. Hadley Davison, Mrs. Ernest Rollins, Raymond Keating, Robert and Harold Baker. Refreshments were served during the social by the good-of-the-order committee.

Next Monday evening the brothers of the lodge will entertain the ladies.

Births

A son was born last Saturday to Mr. and Mrs. Clinton Clark of Beverly. The father is a well known former resident of this town.

A son was born recently to Mr. and Mrs. Gordon Hood of Manchester, N. H. Mrs. Hood was formerly Miss Louise Coates of this town.

PRACTICAL SAFETY FOR THE HOME FOLKS

Carelessness Cause of Many Home Accidents.

By C. B. AUEL, President National Safety Council.

New York.—"Safety First" has come to be one of the most universally known catch phrases in existence, and all kinds of interpretations have been placed upon it.

This unique phrase, which originated some fifteen years ago with the safety movement, does not mean safety above all else. Rather, it means a thoughtful viewpoint or attitude of precaution toward all the natural and artificial hazards of our complicated existence.

Lack of thought or lack of precaution was responsible for 20,000 deaths due to accidents in and about American homes last year. In other words, 20,000 Americans were killed directly or indirectly because they or somebody else did not adhere to the principles of "Safety First."

The practice of safety (precaution) begins in the home, where there are a multitude of hazards little suspected by the average citizen. Nearly every convenience we have in our houses presents an accident hazard, and this we must recognize individually so as to minimize our group fatality ratio.

Fire Great Hazard.

Fire, of course, is generally recognized as an important hazard. To guard against fire, the home must be kept free from rubbish and especially oily waste; the chimney flues should be inspected occasionally for defects and clogging; open-hearth fireplaces should be guarded with screens when used; none but the fuse prescribed by law should be used in the electric wiring system; electric appliances such as the iron, the percolator and the toaster and grill, should never be left unattended while connected with the current; the baby should not be allowed to be within reach of matches.

A little cut or scratch is as potentially dangerous as a severe wound if not attended to immediately and properly. The cut should be washed clean in clear water. Iodine (5 per cent solution fresh) is a good disinfectant, and should be applied only to the cut. Age strengthens the acidity of the skin, especially if it is not cooked properly, and severe burns may be caused. Press the cut in a sterile gauze until healed. A properly treated cut or scratch will never give you fear of blood poisoning.

To prevent mistaking bottles of poison for medicine, stick pins through the corks of all poison bottles. Then, when you reach into the medicine cabinet for your cough medicine you will make no tragical mistake. Keep all bottles out of baby's reach.

Chairs are poor substitutes for step ladders, and even step ladders should be watched for insecure steps or faulty construction. Of the 84,000 persons who were killed in industrial, public and home accidents last year, more than 15,000 died from falls.

Some Hints.

Firearms should be kept always out of reach of children and used by juveniles only in the presence of an adult.

Don't let the baby play around boiling water.

Give yourself plenty of fresh air. Don't be stingy with it just because it is winter.

Keep the temperature of your rooms from 65 to 70 degrees Fahrenheit. Overheated rooms cause 75 per cent of all winter colds.

Bathe frequently, but never just before going out into the cold. Rinse yourself in cold water to close the pores.

Don't keep gasoline in the house. Finally, protect yourself against carbon monoxide or other gas poisoning and asphyxiation by being constantly on the watch for leaky gas stoves and gas pipes and connections.

Never run your automobile motor in a closed garage. Carbon monoxide gas is extremely hard to detect, so never expose yourself where you know there might be some of the gas.

It is not cowardly to practice "Safety First" in the right spirit. It is cowardly to expose yourself to dangers through disrespect for accident hazards or a false sense of bravery.

Phones Give Warning of Fire Damp in Mine

Hundreds of inventors have applied their brains to the matter of finding a certain means of detecting fire damp, the cause of such a large proportion of mine disasters. So far no completely reliable method has been found; but it is believed that a development of the latest idea will solve the problem.

This idea consists in the use of a pair of telephones of a delicate kind, one of which is placed in the upper galleries, where the air is known to be pure, while the other is fixed in the lower workings. Wires from each lead to a central instrument.

Beside each of the telephones is a pitch-pipe into which a current of air is blown by a fan. The two pipes are tuned to give exactly the same musical note.

So long as all is well only one note is received and given out by the central telephone; but directly fire damp occurs the air supplied by the fan to the pipe in the lower workings becomes changed in quality and this alters the note very slightly.

That is, the upper pipe, of course, remains unchanged, and the result is that instead of a single clear note the central instrument emits a discordant noise which immediately attracts the attention of the man in charge, warning him that there is fire damp in the lower galleries.—Philadelphia Inquirer.

Positive Proof That Lover Was Untruthful

They sat on the sofa, he and she. The lights were turned low. They gazed into each other's eyes with perfect contentment. He arranged his necktie for the twentieth time and quivered, "Do you love me, Alice?"

"Uh-huh, I think so."

"I knew you did—I love you too, Alice—you're the only girl for me."

She, hesitatingly—Did you ever—love any other girl?"

"No, Alice—you are the first girl I ever loved, the only girl I ever will love."

"Oh, John, I knew it! I love you more than ever." She flushed with pleasure, raised her chin and looked at him expectantly through long lashes. He took three cigars from his vest pocket, laid them on the table beside the sofa and started to take her in his arms.

She sobbed, "All men are liars," and walked majestically out of the room.—Rebboth Sunday Herald.

Easy to Foretell Change in Weather

It is not always easy to tell what the weather is going to be, but a few signs are very reliable. When it is raining you will sometimes notice that the sky starts to clear in the form of an arch. Close to the horizon you can see the little half-circle which is the beginning of the arch that will sweep across the sky until there are no clouds left. Then you may be certain it is not going to rain again for some time.

Look at the clouds at almost any time of the day, and if these get smaller or remain about the same size, rain is not likely. Should the clouds get bigger, expect showers soon.

In fine weather the wind increases up to midday and then gradually dies down. If the wind does not get less after noon, and still more if it blows harder toward sunset, you may be almost sure bad weather is coming.

Facing a Burglar

If a burglar is at your bedside and bids you throw up your hands, throw them up. Keep them up. If you are awakened by noise below or above or in another part of your apartment and, while you are investigating, come face to face with your burglar, stop where you are. Don't be foolishly hardy. Obey him implicitly. It is cheaper. You can earn more money you can buy jewels to replace those he takes. But not, my friend, if you are dead.

But if you have the drop on him and are sure of it, if you are sure you won't miss—let him have it. It may not be the sporting thing to do but he is no sport. He is not giving you a sporting chance—and will not.—George B. Dougherty in Liberty.

Longevity From Sap?

Longevity through the utilization of sap from trees as a food for human beings is the theory of an Oregon scientist, who is investigating whether there is any foundation for a myth that the ancients who lived to a great age drank the sap of trees. Man must be satisfied with a life of seventy or eighty years, while a redwood tree in California, which was a seedling 525 years before Christ, goes on living at 2,500 years of age, he reasoned. If this scientist can find and isolate the long-life substance in the California redwoods, he believes he will have something better than a gland cure for restoring youth and prolonging life, says Capper's Weekly.

NEW ADVERTISEMENTS

TO LET—Four unfurnished rooms suitable for light housekeeping, at No. 3 Elm Block. Price reasonable. Apply at 3 Elm Block, Andover.

TO LET—Desirable rooms; all modern conveniences. Apply at 6 Chestnut St.

LOST—A pair of gold-bowed glasses. Finder please telephone 297-R.

FOR RENT—7-room cottage house, bath, and about an acre of land for rent at 48 Morton street. Apply at 25 Highland Road. Tel. 675-J.

WANTED—Dressmaking, reasonable prices. ELIZABETH ORMSBY, 45 Pine Street, Andover, Mass. Tel. 1083-W.

WANTED—By a young man, a position as chauffeur or truck driver. Can give best of references. Address "P," Townsman Office.

WANTED—In Shawheen Village, a general maid. Must be able to cook. Telephone Andover 838-M.

WANTED—Gents' used suits. All kinds of clothing bought and sold. 191 Andover St., off Union St., So. Lawrence. Tel. 28109.

TO LET—A four-room tenement, all modern improvements. Telephone Andover 576-M.

ROLL ROOFING \$1.00 PER ROLL—State surfaced, \$2.00 per roll. C. A. Ransom, 527 Concord Ave., Cambridge, Mass. Dept. M.

TO LET—A steam heated furnished room with all conveniences. Apply 55 High St., Andover, Mass.

WANTED—Work. Will do general housework, house, store, or office cleaning. INEZ E. THORNING, 104 Morton Street, Andover.

TOWN OF ANDOVER

PUBLIC HEARING

Andover, August 20, 1925
George D. Ward, having petitioned the Board of Selectmen for a license to keep, store, and sell gasoline to the amount of 1000 gallons, in addition to a license for 1000 gallons previously granted, an underground metal tank located on his property at 78 Lowell street, in said Town of Andover, a public hearing on said petition will be held at the Town House on Tuesday, September 8, at 4 P.M., in accordance with the provisions of the General Laws relating thereto.

ANDREW MCNERNEN
Selectmen of Andover

GRADE CROSSINGS CAUSE 2,000 DEATHS

Fatalities and Injuries In- crease Every Year.

By C. B. AUOL, President National
Safety Council.

Chicago.—More than 2,000 persons lost their lives at grade crossings in 1924, and there were more than 6,000 injured. In spite of the fact that railroad officials, automobile manufacturers and state and county road commissioners have co-operated to provide suitable warning in the form of mechanical devices to attract the motorist's attention and prevent him from crossing the tracks in the face of a locomotive, the fatalities and injuries have increased from year to year.

Various methods have been suggested for relieving the situation, the principal and most discussed of these being the elimination of grade crossings by separation of grades. Indeed, this would prevent any further railroad crossing accidents, but it is estimated that such elimination would cost \$25,000,000,000 and would take at least 200 years. Most people are familiar with the much-talked-of and sometimes-tried schemes of warning at railroad crossings. Motorists all know the railroad cross-buck grade crossing signs at the side of the highway; in some sections of the country the motorists are familiar with the bumps in the road opposite to the grade crossing, they are familiar with the bell systems and the light systems of warning. These devices are effective in that they give warning, but beyond this they are useless.

Drivers to Blame.
It is not the crossing wherein the accident hazard lies. It is not the locomotive which bears down on an automobile that is the cause of an accident. It is not the automobile itself. All of these devices are almost mechanically perfect and are not dangerous in themselves, but in their operation. Simmered down to a fine point we shall all have to admit that it is those of us who drive automobiles who are chiefly responsible for grade-crossing accidents.

Strange as it may seem, 70 per cent of all the grade-crossing accidents, wherein motorists are killed, occur in broad daylight. Sixty-three per cent occur at grade crossings where the view is entirely open and unobstructed. Fourteen per cent of grade-crossing accidents are due to the driver of an automobile colliding with the side of a moving train. Twenty-five per cent of all automobile drivers fail to use reasonable care in approaching and passing over the railroad grade crossing. Yet it is estimated that only about 5 per cent are extremely reckless, using no care whatsoever. On the assumption that we have 17,700,000 automobiles in this country this year, it means that there are 875,000 reckless drivers, each one of whom is a potential train wrecker.

Laws Inefficient.
Laws compelling the motorist to stop at grade crossings would be ineffective because we Americans do not react to law and discipline of the person as do other people whose life history has been less rugged. The whole matter of preventing public accidents and grade-crossing accidents are only a part of the great number of avoidable mishaps which occur every year in this country—can be laid to the public conscience. Without a crystallization of that inner feeling against the public accident, the safety movement will fail.

Undoubtedly a great step toward the solution of this problem will have been taken when the various states require the mental and physical examination of every automobile driver in the country, and do not let him or her drive an automobile upon the streets and highways without essential qualifications.

"Old Faithful" Geyser
Alters Eruption Period
Yellowstone National Park.—Even Old Faithful, supposed to be the most constant, and certainly the most celebrated geyser in the world, is undergoing changes.

This year, Old Faithful is erupting every 67 minutes and his outbursts last for about five minutes. In the memory of living scientists, this geyser became active every 60 minutes, and there is much speculation as to changes beneath the earth's surface which are slowing down this old wonder.

Many geysers in the basin of the Fire Hole river, the greatest geyser area in the world, have ceased shooting entirely within the last 50 years, while others which were formerly in active are again shooting.

Old Faithful still sends steam and water into the air to a height of 150 to 200 feet and is surrounded day and night by throngs of tourists awaiting his outbursts.

Sweden Develops Radio
at Expense of Cable
Gothenburg, Sweden.—Wireless transmission of messages has so developed in Sweden that the government's station at Grineton now sends about 95 per cent of all telegrams from Sweden to the United States. The receiving station, on the other hand, gets only about 40 per cent of the telegrams coming from the United States.

In order to meet the new competition the cable companies have reduced their prewar rates.

The Grineton wireless station was built for direct communication with the United States.

DEATH OF CHILDREN LAID TO VAMPIRISM

Mysterious Tragedy Stirrs City of Buenos Aires.

Buenos Aires.—Public interest here is almost exclusively centered at present on the extraordinary circumstances surrounding the deaths of seven adopted children in the house of a millionaire, Osvaldo Testoni. The chief of police has abandoned the charitable theory that Mrs. Testoni's inhuman treatment of the defenseless children was due to a strange obsession of a mentally deranged woman and is now working on the theory that an unprecedented lust for cruelty impelled her to torture the children to death by slow starvation in order to gloat over their prolonged suffering.

An investigation has revealed the fact that earlier victims were accorded only the plainest of funerals, in strange contrast with the excessive luxury with which they were surrounded for their long martyrdom.

The unaccountable indifference displayed by eminent medical men who attended the children, and also by the woman's husband, Osvaldo Testoni and by the numerous retinue of servants who saw the terrible drama unfolded before their eyes is the most intriguing aspect of the whole affair.

ELKS' NEW RULER

United States District Judge William Hawley Atwell of the Northern district of Texas was elected grand exalted ruler of the Elks at the convention in Portland, Ore.

Village "Devil" Holds Siberians in Terror

Minsk.—An amazing trial illustrating the ignorance and superstition of the Russian peasantry recently was held in this district.

In order to increase the income of the village priest and to strengthen his authority over the local peasantry, a group of parishioners resolved to frighten the peasantry with the pretense of a "real" devil in the village.

A village boy was dressed up to resemble a devil. During the night he went to the village dwellers to frighten them. He was instructed to carry out secretly slight damages to peasants' property.

This went on for several months, and the ignorant peasants took it all in earnest, as a penalty for their sins. They flocked to the church, induced the priest to hold special services and organized common prayers and religious processions.

A special commission had to be sent from the district town to investigate the peasants' troubles, which were brought to an end only by the arrest of the "devil."

The priest and the local authorities were placed on trial and sentenced to many years' imprisonment.

Cuff-Button Record

Warsaw, Ind.—L. F. Tillman, Warsaw, claims the championship for wearing a pair of cuff buttons longer than any other Hoosier. At the age of sixteen years he bought the buttons and has worn them almost daily and is now fifty-nine years of age, making a record of forty-three years.

Maoris Trace Forebears to Hawaiian Islands

Honolulu.—Many of the Maoris of New Zealand consider their race had its origin in Hawaii centuries ago. It has been revealed by Ratina Jakoba, a prominent Maori. He is here with a group of Mormon church-workers from Australia to visit the famous Mormon temple at Laie, Oahu.

Jakoba said he had traced his ancestry back to a chieftain named Hema, who ruled the island of Hawaii. After a devastating war in which Hema was defeated badly and forced to flee from the island for his life, he and a few companions set sail for the south in huge war canoes. Maori legends have it that they landed in New Zealand.

Jakoba said the Maoris had established the names of the canoes in which their ancestors went from Hawaii to New Zealand.

MAKE GOOD PAPER OF CORN STALKS

Farm Waste Now Regarded as Important By-Product.

Ames, Iowa.—A ton of cornstalks in this region has been considered so much agricultural waste, but the chemical engineering department at Iowa State college has found it to be worth, at present prices, about \$150 a ton when converted into paper.

Prof. O. R. Sweeney, head of the department, has manufactured paper of a fine quality from cornstalks, and he believes it can be made to match in quality any stock of wood-pulp paper. Professor Sweeney already has visions of paper mills in these prairie states, bringing back an industry which the country is losing with the passing of its forests.

The question of utilizing cornstalks for the making of paper involves a number of industrial problems into which the chemists have been delving. Professor Sweeney's experiments show that by means of a chemical process worked out in his laboratory, six-tenths of a ton of paper can be made from a ton of stalks. Iowa produces between 20,000,000 and 25,000,000 tons of stalks yearly and the United States about 100,000,000 tons.

Oat and wheat stalks have been used in the manufacture of straw-board, but they are too short-fibered for making higher grades of paper. Cornstalks do not offer this difficulty, said Professor Sweeney, they being longer, in fact, than those of wood. Paper manufacturers who have seen the paper made in the laboratory declared it to be of high quality.

The department also discovered a by-product in the paper-making process. The liquid extracted from the stalks was found to have high adhesive properties, which might be applied to a new adhesive product.

HAD OPTION ON MIAMI

John Holden, New York lawyer, who at one time had an option of \$10,000 on the land on which now is the city of Miami, Fla. About thirty-five years ago he went South and invested in mahogany and precious wood lands on the Florida keys. While there he made a trip to the mainland, saw the possibility of a city and obtained an option for \$10,000 on a mile on the bay and a mile on the river where Miami now stands. He allowed the option to lapse, however.

Condemns Four Thieving Boys to Sunday School

Williamsport, Pa.—Placing them where they shall be taught "Thou shalt not steal," Mayor Gilmore sentenced four boys whose ages range from nine to fourteen years to attend Sunday school regularly for an indefinite period.

The boys were charged with taking a pocketbook belonging to their school principal and were taken into custody when the grandmother of one of them discovered the theft and notified the police.

After pleading guilty, the boys were shown the cells in the city jail and imprisoned. Mayor Gilmore imposed the Sunday school sentence. He warned them their cases would be reopened if they fail to carry out faithfully the sentence imposed.

Prince Bibesco Thinks U. S. Girls Heaven Born

Atlantic City, N. J.—An American woman must have come from heaven, in the opinion of Prince Antoine Bibesco, Rumanian minister to the United States, who is seeing quite a few of them on the boardwalk during his sojourn here. Making it clear that he was not discussing evolution, he proceeded: "Some countries have beautiful women and some have brilliant women, but it has been left to America to produce women both beautiful and brilliant." Princess Bibesco was an English girl.

Puts Radio in Coffin for DX After He Dies

Los Angeles, Cal.—Sam R. Kimball, elderly San Bernardino valley rancher, has placed an order with a Los Angeles undertaker for a \$1,200 steel coffin equipped with a radio receiving set.

Kimball explained that he is convinced that the soul lingers near the body until the Day of Judgment, and that he will be able to "hear what is going on in the world" after he dies.

MUSSOLINI WRITES FASCIST HISTORY

Tells of Political Creed He Brought Into Power.

Rome.—Not satisfied with having created Fascism, with having put it into effect during three arduous years, and with bearing the herculean responsibility of holding simultaneously five cabinet posts, Benito Mussolini is now undertaking the task of incorporating his achievements by becoming the interpreter and historian of the political creed he brought to power.

Undaunted by the almost superhuman exertions and responsibilities of his unusual position, the premier has found time and energy to contribute to the political monthly, *Gerarchia* (Hierarchy), which he founded, two carefully written articles, explaining the Fascist conceptions of the "1922 revolution" and of the new labor union.

Points the Way.
The articles, apparently the initial ones of a series, each militant and controversial in tone, survey the historical background of the subject matter, justifying the Mussolinian point of view, and aggressively point out how the 1922 revolution and the Fascist labor union can be used as weapons in the struggle to Fascistize Italy.

Writing on the labor unions organized by his party, Mussolini argues they are different from those in all other countries in two respects: they accept fully the idea of fatherland, rejecting any internationalism which implies political adherence or class fealty breaking through national boundaries, and they consider capital not as an element to be suppressed, but as one to be liberated and strengthened for the benefit of the fatherland.

Insists It's Insurrection.
Supporting the thesis that Fascism came into power by a revolution and is now defending itself as a revolutionary government, the premier asserts that the two years before the now famous "March on Rome" constituted a war between Fascism and the government then in power.

Answering the objection that the march on Rome was a parliamentary coup d'etat, Mussolini maintains that it was an insurrection, adding that a revolution does not necessarily coincide with its most important insurrectionary acts which, he declares, is but a single moment of the revolution and often not the first one. If the Fascist revolution were comparatively bloodless it was merely because the government in power realized it would have been fully to resist.

The premier concludes his survey with a plea that Fascists realize the possibilities and necessities of the revolution, that they keep ever in mind the need for defending it and using it militantly against its opponents who are hence not merely peaceful parliamentary enemies but traitors and subversives.

Yellowstone Park Staff Recruited in Colleges

Ashton, Idaho.—Yellowstone park has a vocabulary all its own, and tourists visiting it the first time have many surprises in store for them. An automobile driver is never a chauffeur in a park. He is a "gear-jammer." A waitress is always a "heaver" and a cook is known only as a "meat-burper."

Most of the employees in the hotels and camps of the park are students. Twenty universities and colleges are represented among the hundreds of waitresses and housemaids working in the big hotels and camps. There are

too many school teachers among the women employees, and this year most of these motored to the park in their own cars. The chauffeurs and other men employees of the transportation and hotel companies also came chiefly in their own autos. Many of the students motored all the way from New York and large numbers of them came from California.

Foresees New Continent in Middle of Pacific

Washington.—A prediction that Uncle Sam soon will be presented by Mother Nature with a fair-sized continent in the mid-Pacific was added to the profusion of discussion and conjecture that followed recent seismic disturbances.

Edwin Fairfax Nauty of New York, who has studied earth movements for many years, declared the Hawaiian islands gradually and quietly were being pushed upward, and within a generation would comprise a high and dry territory as large as Japan.

Only the peaks of a great range now arise above the surface of the sea at Hawaii, he said, but a constant "squeezing" process at work in the bed of the Pacific may be expected to push these peaks upward. He expects a gradual rise over a period of years entirely unaccompanied by serious earth shocks.

"This Leg First"

Middletown, N. Y.—When Joseph Limani, twenty-one, was run over by an Ontario & Western railroad train and badly crushed, he told surgeons which leg he desired to have cut off first. Pointing to his left leg, which was nearly severed, he said:

"Put me to sleep and take off the leg right there."

It is said that if Limani survives it will be because of his grit.

Boston Strong For Onions

AMHERST, Aug. 23.—Boston, the Onion City! Twenty-five pounds of onions per person, the largest amount among the cities of the country; 11 pounds more than New York City wants, judging by the average number of carloads unloaded in 1920, 1921 and 1922, is Boston's appetite for onions. That means 900,500 bushels for the 1,801,320 persons in Greater Boston in a year.

Dr. A. E. Cance, Head of the Department of Agricultural Economics of the Massachusetts Agricultural College, is senior author of "Marketing Onions," bulletin just published by the United States Department of Agriculture. In it he not only takes a census of Boston's onions but polls the important onion raising enterprises throughout the country, the difficulties that beset producers, their success at marketing their crops and the distribution of it.

Boston's onions, the bulletin states, come chiefly from three states. The Connecticut Valley supplies 41 per cent, Texas 18 per cent, and California eight per cent. Fifteen per cent come from Liverpool. The total received is 1813 carloads.

Though Boston may have the largest per capita receipts, Massachusetts ranks only fourth in the number of onions produced. New York produced 2,598,000 bushels in the five season from 1918 to 1922. California contributed 2,337,000 bushels to the country's soups. Ohio 1,679,000 and the Bay State 1,676,000. Indiana also raises a few onions, 1,522,000 bushels a season. The average annual production for the whole country was 17,500,000 bushels.

Massachusetts onions, however, have consistently proved to be worth more than those in other regions, the price on the farms having been \$495 for an acre's yield while parts of Indiana and Ohio received but \$202 for the odorous products of their muck-lands. The average per acre value for the country was \$332.

Dr. Cance notes a change in onion production in the past few years; it is moving westward. "Production in the Western and Middle Western states has increased," he says, "while in New York, Massachusetts and some of the other older onion sections, it has remained about stationary or has decreased. The decrease has apparently been caused by substitution of other intensive commercial crops, such as tobacco, celery and lettuce."

The advantages enjoyed by the older onion-producing regions are offset by heavy expense for fertilizers and by greater prevalence of diseases and pests. The Connecticut Valley suffered heavily from the onion thrips in 1922. It lost a substantial part of its market that season as well as much of its crop.

Marketing proves to be one of the uncertainties that the fortunes of onion growers waver over. Cooperative associations have been found to be too small to command a market alone even though seven of them together sold \$464,826 worth in 1922. The Texas Farm Bureau Onion Growers' Exchange, however, has been more successful, having disposed of \$646,715 worth of the 1923 crop. An Indiana Federation of farmers' cooperative associations sold \$400,000 worth of onions in 1923. Thus, the bulletin concludes, while cooperative effort affords some economies in assembling the product and improving the grading and packing of onions, the federation type of organization with its larger volumes, better distribution and improved market conditions generally, can stabilize the market better and make fair returns to the growers.

The Connecticut Valley grower is reported as receiving 28 per cent of the consumer's dollar. The country dealer or buyer takes eight per cent; the railroads get seven, a city wholesaler takes only one per cent, the jobber two, and the retailer 54. The distribution of onions is a hazardous business. But prices for onions vary. High prices tend to alternate with low prices in successive years, corresponding with like variation in production. Quality of the crop, probable imports, and the general business outlook all have their effect on the market.

**25 Years of
Firestone
Service**

to Highway Transportation

25 years of anticipating the requirements of motorists—making manufacturing processes more certain—producing a higher standard of quality—25 years of unswerving adherence to the Firestone pledge, "Most Miles per Dollar"—summarizes Firestone's record of service to car owners.

Firestone factories have grown from a small building approximately 75 x 150 feet to mammoth plants having floor area of over 60 acres—from a capital of \$50,000 to over \$50,000,000—from an annual sales volume of \$100,000 to over \$100,000,000—all in the short period of 25 years.

This Firestone record could only have been made through furnishing the public with outstanding values and is, consequently, your assurance of quality and lowest prices.

If you would like to know more of this wonderful record, ask your Firestone dealer to send you an illustrated folder.

With today's high cost of crude rubber and other raw materials, Firestone's opportunity to serve the public was never better, due to its great volume and special advantages in buying, manufacturing and distribution.

***** Finds New Religion for Ex-Servicemen *****

The "Patriarch of Windsor," the founder of a new religious movement which is to include the ex-service men of the United States and Great Britain. He came to this country from England and is making arrangements for establishing his cult in this country with a foundation church in Washington. He has renounced his name never to use it again unless he wishes.

Millionaire Leaves \$4,000 Bonds to Cat

Boston.—Bitter resentment treasured in his heart for more than forty years because a fascinating young woman to whom he gave a musical education abroad married against his wishes is believed to be the motive for a strange will, disposing of an estate of about \$1,000,000, left by Irving Wood.

According to one of Mr. Wood's most intimate associates, the aged financier bought four San Salvador 8 per cent bonds last year, planned a note to them stating the income was to be used by his housekeeper in providing John Henry with the best of care, and declared his intention of making appropriate provision for this in his will.

The will, filed in Probate court, does not mention John Henry's name, but Miss Alice W. Blackburn, the housekeeper, said she saw the bonds Mr. Wood bought for the cat, saw him write the note stating their purpose, and that he told her to take care of both the bonds and the cat after his death.

John Henry, five years old, and said to be the biggest and heaviest pet cat in Boston, is now living in state at the Wood apartment.

Burn Equipment in School Used by Lepers

New York.—Teachers and pupils of the Avon avenue public school in New York clustered around the fiery opening of a furnace in the basement.

All the books, papers, pens, pencils, erasers and manual training equipment in the school were consigned to the flames.

It was a pyre kindled by the fears of eight teachers and many parents that articles brought near to Hale and Frank George, student lepers, might be infected with the dread tropical disease. The bonfire cost the taxpayers of Newark more than \$2,000, as books are furnished free.

Meantime, the George lads, thirteen and eleven years old, were receiving expert treatment at the Essex County Isolation hospital. Chaulmoogra oil, the specific for leprosy, was being administered regularly and the boys, in good spirits, were receiving visits from their parents.

EARTH'S WEATHER AFFECTED BY SUN

Smithsonian Scientists So Decide After Experiments.

Washington.—The heat of the sun has a proved relation not only to changes in the earth's temperature, but to the variations in weather conditions in general. Smithsonian Institution scientists have decided after experiments covering a long period. To increase the dependability of their observations, the experts hope to establish within a few years stations in various parts of the world where data can be gathered.

Through a series of papers dealing with experiments of its astrophysical observatory, the institution says "researches give clear proof of a connection between solar variations and weather changes, but show that the relation is a complex one."

Whether recent abnormal aspects of world-wide weather have been caused by solar conditions cannot be determined, because extended records of the past history of solar radiation are lacking.

Dr. C. G. Abbot, assistant secretary of the institution and the director of the astrophysical observatory, says that not only does the heat received by the earth from the sun appear variable, but that the changes can be predicted nearly a week in advance by looking at the sun through a telescope.

H. H. Clayton, who for several years was official forecaster of Argentina, and recently has been collaborating with Doctor Abbot through study of the sun, has predicted with what the institution asserts is very fair accuracy the actual daily temperatures of New York city nearly a week in advance for more than a year.

Find Relics of Life in Egypt at Time of Christ

Calro.—The University of Michigan expedition which is excavating on the site of ancient Karanis in Egypt has found more than 2,000 objects illustrating the life and culture of the Greco-Roman period. The city flourished in the centuries immediately preceding and following the birth of Christ. Prof. Francis W. Kelsey, director of the work of excavation, recently returned to the United States.

Since December, 1924, more than 1,000 rooms and 300 houses have been cleared of sand and debris. The site of the city is so dry that the preservation of perishable substances is perfect.

The articles found include more than 450 Greek papyri, including a small library dating from the Second to the Fifth century; a large collection of glass vessels, 50 examples of basketry, textiles showing ancient fabrics from fine linen to coarse weaves resembling burlap and more than 100 examples of wooden tools, preserved without decay.

About 300 terra cotta objects, 200 lamps and a great number of coins and smaller objects have been found.

Among the tools found are implements used by farmers and complete and perfectly preserved sets of harness for donkeys and camels. A large bakery was unearthed with a number of grain bins and a large mill for grinding the grain, and at one side were found several piles of coarse, flat loaves of bread, just as they were left when the bakers abandoned the town.

Hungarian Noble Kept Poor Feeding Horses

Budapest.—When the late Emperor Charles was banished Prince Francis Esterhazy, in a moment of ardor, promised to shelter and feed the imperial horses "until such time as the Hapsburgs should want them again."

The undertaking brought to the prince 90 horses to care for and maintain, and the financial strain, recently, has been heavy. Nevertheless the prince held to his word, despite the protests of members of his family.

Finally the manager of the Esterhazy estate journeyed to Spain and explained the situation to ex-Empress Zita. She was understanding, and the manager returned with a decree signed by Otto, her eldest son, absolving the prince of his promise.

ANDOVER AGAIN DEFEATED

Shawshew Bowlers Outwound Town Team for Second Week in Succession
Close Battle on Rink

For the second week in succession the Shawshew bowlers took the measure of the Andover team on the local rink last Saturday afternoon, defeating them on two rinks 50 to 25.

The one-sided score was due chiefly to the excellent work done by the Shawshew team on rink 2 composed of D. Robb, T. Niel, G. Fyffe and D. Strachan, skip. This quartet overpowered their opponents 31 to 10, scoring almost all the points.

The game on rink one was more evenly contested, the Shawshew team winning 19 to 15.

The summary:

SHAWSHEEN	ANDOVER
I. Robb	A. Meek
D. L. Stewart	J. Greenhow
J. Skea, skip	19 J. Watt
D. Robb	A. Robb
T. Niel	A. Paton
G. Fyffe	G. Cruikshanks
D. Strachan, skip	A. Gordon

Baseball and Soccer September 5

An innovation in connection with the opening of the soccer season at Balmoral will be attempted by George M. Wallace. On Saturday, September 5, when the Shawshew soccer team opens its season with Fall River, the Hardy and Ross baseball team of Andover and the East End Merchant Harps of Lawrence will stage a baseball game. Both will be played at Balmoral Field. The baseball game will be staged as a forerunner to the soccer game.

Mr. Wallace plans offering a fine prize for the winning team and it is expected that the baseball game and soccer game together will attract one of the biggest crowds ever to attend an athletic event at Balmoral Field.

The baseball game will start at two o'clock and will be immediately followed by the soccer game. Fall River was champion of the American league and Shawshew, champion of the National cup series last season.

Harry McGowan, Evans and McCormick have arrived and are in training with the rest of the team. Andy Stradan is due to arrive next week. Thomas Murdoch, who has been spending the summer in Scotland has returned. He has signed to play with the local team. The addition of this player to the team gives Shawshew one of the best defensive teams in the American league.

Truck on Fire

Sunday evening about nine o'clock Box 46 rang in for a fire in a truck at the corner of Main and Morton streets. The truck was being towed to the Andover garage, and coming down Main street hill the brakes caused friction which resulted in a slight fire. Seeing the blaze, a passer-by rang in the alarm. There was no damage to the truck.

The truck was being driven by Demetrius W. Nicholson of 21 Magnolia street, Lawrence, and in it were his wife and children. Mrs. Nicholson had one of the children in her arms, and on seeing the fire jumped from the truck and fell, bruising her face. The child was unhurt.

Local Girls Win at Westford

Misses May Valentine and Margaret Buchanan of this town were among those who were awarded swimming prizes at Longsought for pond in Westford on Saturday. Miss Buchanan won first prize in every event that she entered during the day, being especially noteworthy in the 100-yard dash, the surface dive, and in the tired swimmer's relay. The girls passed the American Red Cross Life-Saving test recently and are efficient swimmers.

Visited Soldiers at Danvers

About thirty members of the American Legion auxiliary of local police court Tuesday afternoon at 4 o'clock before Judge Jeremiah J. Mahoney on a charge of operating an automobile while under the influence of liquor; also for illegal transportation of liquor and failing to stop when ordered by a policeman. On the charge of operating under the influence of liquor, Miss McGraw, violin and piano selections by Miss Esther and Richard Dwyer and folk dances by Marguerite Eastwood.

The members of the auxiliary went to the hospital in private automobiles and the gifts which were solicited from the townspeople were numerous and generous. Mrs. Harry Gouck is chairman of the welfare committee and she wishes to thank all those who contributed in any way to the success of the afternoon.

Dorchester Motorist Fined

Richard Riley of 2 Bay street, Dorchester, was arraigned in local police court Tuesday afternoon at 4 o'clock before Judge Jeremiah J. Mahoney on a charge of operating an automobile while under the influence of liquor; also for illegal transportation of liquor and failing to stop when ordered by a policeman. On the charge of operating under the influence of liquor, Riley was placed on bail, while he was fined \$25 on the charge of failing to stop when ordered to do so.

Two companions who were with Riley at the time of the arrest were James Daly of 5 Saxon street, Dorchester, and Robert Sullivan of 1387 Commonwealth avenue, Alton. Daly and Sullivan were both fined \$15 on charges of drunkenness.

According to evidence introduced in court Riley and his companions were riding through the square late Monday night, and the car was ordered to stop by Officer Leonard Saunders. Riley failed to stop the car and the trio were apprehended by the Reading police who held them for the local officers.

Entertained Counsellors

Mrs. Arthur T. Boutwell of Shawshew road entertained several of the counsellors of Camp Andover at her home this week and a very pleasant evening was spent. Games and music were enjoyed and light refreshments served. Miss Rachel Boutwell who is one of the camp counsellors this year, acted as hostess and her guests included Miss Adeline Allen of Boston, head counsellor, Miss Alice Miles of Cambridge, Miss Eugenia Parker of Winchester, Miss Elizabeth Thomas of Dorchester, Miss Katherine Farlow of Andover, Miss Helen Whittier of Baltimore, Miss Lillian Olson of Concord, Miss Louise Howland of New Bedford, Miss Mary Armentrout of Alabama and Miss Marjorie Holmes of Boston.

PERSONALS

Mr. and Mrs. Benjamin Babb are visiting in Farmington, Maine.

Donald D. Hunt is enjoying a motor trip through the White mountains.

Reginald Moore of Lawrence has accepted a position in the Balmoral Spa.

Dr. Nathaniel Stowers of Haverhill street visited at Island pond recently.

Mrs. William Thompson of Enmore street has returned from a visit to Scotland.

George Dannels, Jr., of Sutherland street is spending his vacation on the Cape.

Mr. and Mrs. C. LeRoy Amby of Argyle street are on a motor trip to Canada.

Mr. and Mrs. Foster Robinson of West Andover have moved to Enmore street.

Miss Grace Macdonald of Dumbarton street is at Salisbury Beach for a few days.

James S. Hamilton of Arundel street spent the week-end with his family at Winthrop.

Richard E. Davis and family of Sterling street are at Provincetown for two weeks.

Mrs. Matthew Burns and son, Malcolm, of Dumbarton street spent Thursday at Lynn Beach.

Harry Hyland and family of Haverhill street have returned after a two weeks' vacation.

Mr. and Mrs. Henry J. Summers of North Main street motored to Franklin Park, Monday.

Mr. and Mrs. C. H. Currier and Willard Currier of Kensington street are at Crawford Notch, N. H.

Mr. and Mrs. Harry C. North of Poor street have returned from a visit to Lake Winnepesaukee.

Mr. and Mrs. Frank Porter and family of Carisbrook street are spending the week at Ocean Park, Maine.

Mr. and Mrs. William Prower of Arundel street are spending their vacation at Lake Winnepesaukee, N. H.

Mr. and Mrs. Hugh McNeil and family of Haverhill street have been spending the week at Salisbury Beach.

Frank A. Baldwin of Carisbrook street has returned from Kittery, Maine, where he spent the past two weeks.

Thomas Niel and family have moved from Haverhill street to Hartford, Conn., where Mr. Niel has accepted a position.

Mr. and Mrs. W. S. Wainwright and son, Abbott, of Baltimore are the guests of Mr. and Mrs. Joseph B. Harig of Kensington street.

Mr. and Mrs. Robert Williams and daughter, Helen, of Lowell street, are enjoying a motor trip to Niagara Falls, and Canada.

Virginia Remington of Argyle street has returned from Camp Wicahie, Sebec lake, Maine, where she has been spending her fourth season.

Mr. and Mrs. J. Augustus Remington of Argyle street have been spending their week-ends at the Mitchell house, York Beach, Maine.

Miss Mae Lakin, popular clerk at the Balmoral Spa, has returned to her duties after spending her vacation in Eastport and St. John, N. B.

Palmer Kitchin, son of Mr. and Mrs. Harold Kitchin of Arundel street, has returned after spending the summer at a boy's camp in Connecticut.

Misses Agnes and Gertrude Phillips of South Union street spent the past week at Old Orchard Beach, where they were registered at the Ingleside hotel.

Miss Irma Coolidge of Haverhill street has returned from camp Wicahie, Sebec lake, Maine. Miss Coolidge was counselor during July and August at the camp.

Mr. and Mrs. Herbert Kiessling and daughter, Mildred, left Monday for Sarasota, Florida, after a several weeks' visit at the home of Mr. and Mrs. Albert G. Flint of Enmore street. Mr. Kiessling is a former Lawrence man and is now engaged in business in Florida. He and his family will make the trip by auto.

Wins Camp Championship

Charles Murray of Balmoral street who has been playing so well in the village tennis tournament this week has recently returned after spending the past month at Camp Belknap, a scout camp at Lake Winnepesaukee. While there he participated in the tennis tournament and won the camp championship.

Treasures of History in Moscow Library

Moscow's largest library is the former Rumiantzev, now renamed the Lenin public library of the Soviet union, writes a correspondent of the Christian Science Monitor. This institution, which was established in Petrograd in 1828 and transferred to Moscow in 1862, contained more than a million volumes before the World war. Now this number has greatly increased. The library authorities themselves are not certain of the exact number of books under their charge, since no accurate count has been taken recently, but it is estimated that the number of books in the library is now well above 2,000,000, and may have reached the figure of 3,000,000.

There are several causes for this increase in the number of books since the revolution. The contents of requisitioned private libraries were turned over to the Rumiantzev institution.

A bibliophile would find many treasures in the Lenin library. There are many old prints, both Russian and Slavonic, the most ancient, perhaps, being the Gospel of Archangel, which dates back to 1093. This collection also includes the well-known Crecow edition of 1491. There are a number of medieval Greek manuscripts and the library boasts a complete edition of the works of the Italian philosopher, Giordano Bruno. There are many original manuscripts of such Russian writers as Tolstoy, Turgeniev, Herzen, Chekhov, Pushkin and Ostrovsky.

TENNIS TOURNAMENT UPSET

Charles Murray, 14-Year-Old School Boy, Eliminates Rice, and Loses to McGrath in Hard Battle

The field in the fifth annual Shawshew tennis tournament has narrowed down to seven players as a result of the past week's play and with good weather over the week-end the winner should be determined by Sunday night.

All the matches have been well played and one or two upsets have created plenty of interest in the tournament. The biggest surprise came Wednesday night when Charles Murray eliminated Paul M. Rice. Murray, a 14-year-old youngster, proved too much for Rice and easily disposed of him in straight sets 6-3, 6-4. He was forced out himself Thursday night when he met William McGrath, but although the scores were 6-2, 6-3, they hardly give an accurate idea of the match. Murray forced last year's champion to six deuce games, four in the first set and two in the second.

After losing the first set 6-1, he gave his supporters hope by coming back for a period and leading 3-1. McGrath found the youngster's weakness on the backhand stroke and with Murray's nervousness won the next five games giving him the set and match. Despite his defeat, Murray played fine tennis and is bound to be heard from before many more summers pass.

The matches still to be played are: Miss Louise Baker vs. Arthur R. Sherburne, the winner to meet William McGrath in the semi-final; the winner of the match between Loring Higgins and Lester Thompson will meet the winner of the Charles Scobie-Elbert Ingraham match in the other semi-final.

The results to date are:
First round: Bernard Harig defeated Edward Dodge, 6-2, 6-1; Miss Louise Baker, by; Stanley Livingstone, by; Arthur R. Sherburne, by; William McGrath defeated Dr. Leon G. Beeley, 6-2, 6-2; J. Augustus Remington defeated R. S. Bartlett, Jr., 6-2, 6-4; Charles Murray defeated Edward Ewer, 6-2, 6-1; Paul M. Rice defeated Frank Wilson, 6-3, 7-9, 6-2; Loring Higgins defeated J. S. Fursman, 6-2, 4-6, 6-1; Roy W. Hall, by; W. Hollinghurst, by; L. Thompson, by; Mrs. Edith Livingstone defaulted to William B. Higgins; Charles Scobie defeated Irving Clark, 6-3, 6-2; Henry Summers defeated Leslie Christison, 6-3, 6-4; Elbert Ingraham, by.

Second round: Miss Louise Baker defeated Bernard Harig, 6-4, 6-4; Stanley Livingstone defaulted to Arthur Sherburne; William McGrath defeated J. Augustus Remington, 6-1, 6-0; Charles Murray defeated Paul M. Rice, 6-3, 6-4; Loring Higgins defeated Roy W. Hall, 6-4, 6-2; Lester Thompson defeated Walter Hollinghurst, 3-6, 6-3, 6-3; William Higgins defaulted to Charles Scobie; Elbert Ingraham defeated Henry J. Summers, 4-6, 6-1, 7-5.

Third round: William McGrath defeated Charles Murray, 6-2, 6-3.

Interested in Florida

Many persons locally are interested in Florida. All these will be especially interested in the forthcoming Florida edition of Outdoors Pictorial. This will contain many pages of text, beautifully illustrated, setting forth the scenic and industrial attractions of the state. It will be the most elaborate and handsomely illustrated publication on this particular subject yet produced. Copies of this beautiful number can be secured by sending thirty-five cents to Outdoors Pictorial, 425 10th St., N. W., Washington, D. C.

Stranger Guessed Well

A captious traveler in northern Arkansas stopped by a fence to criticize a near cornfield, which met his disapproval. "Mighty small corn you have there!" he shouted to the man who was "superintending the growth" from a shady corner.

"Yes," said the Arkansan, "Planted the small kind."

"Looks mighty yellow to me for this time of year."

"Well," said the traveler, severely, "I can't understand your method of farming. You won't get over half a crop there."

"No," said the Arkansan, cheerfully. "You are shore a good guesser, stranger. Half a crop exactly, that's mine. I planted this on shares."—Kansas City Star.

On Their Behalf

The minister in a little church that used natural gas for illumination announced his text in solemn tones—"Yea, the light of the wicked shall be put out."

Immediately the church was plunged in total darkness, due to a failure in the supply.

"Brethren," said the minister, with scarcely a moment's pause, "in view of the sudden and startling fulfillment of this prophecy, we will spend a few minutes in silent prayer for the gas company."

Plain Gold Ring

The wedding ring of plain gold, which is a survival of Saxon times, has outlived several attempts at change of fashion.

For instance, at the marriage of Queen Mary of England to Philip of Spain the English statesmen debated the question of the ring and wished to have it jeweled, but Mary herself intervened by declaring that she would not have it set with gems, for she chose to be wedded with a plain hoop of gold like other maidens.—Detroit Free Press.

Early Upholstery

It was not until the time of the style which we call Queen Anne that the art of upholstering chairs and settees became widely known in England. The style was not, of course, contemporaneous with the queen of that name. During this time William, stadtholder of Holland, was king of England, and many Dutch upholsterers found their way to England and under their direction the English upholsterers became quite proficient.

ESTABLISHED 1865

THE REAL TEST
You can't always tell how a used car is going to act by the way it hums around the block. You've got to demand something more than "sounds" and "looks"—and that something is REPUTATION.

To All Masters of Boy Scouts Troops in Essex County

Saturday, September 19, 1925, will be Scout Day at the annual Essex Agricultural Society Fair held at Topsfield. The society admits without charge all scouts and masters.

The committee on arrangements has held a meeting and adopted a tentative program which is as follows: Flag raising at 10 a.m. sharp.

This will be followed by troop contests which may include the following: knot-tying contest, water boiling contest, coat stretcher race, semaphore signalling contest, antelope race, first-aid race, chariot race, relay race (juniors), relay race (seniors).

An opportunity will also be given for any troop to give a demonstration of its own as tumbling or pyramid building.

There will be competitive demonstrations in:
1. Construction of Lean-tos by Lawrence, Swampscott, Manchester and Topsfield.
2. Fire building in front of Lean-tos by Middleton, Beverly, Peabody, and Rockport.
3. Camp cooking over these fires by Gloucester, Lynn, Danvers, and Lawrence.

The Salute Review Songs will be sung around the Central Camp Fire and it is hoped that all troops will present a team to compete in a Shuttle Race and Dodge Ball.

It is expected that a competition will be arranged between several bugle and drum corps.

The program will probably be arranged by having two events run at the same time to complete it within the given time.

At the conclusion of the events there will be a grand march of the Boy and Girl scouts and prizes will be awarded.
A tent will be provided by the society as headquarters for the boys and a lunch will be furnished by the society. Provision is also made by the society for prizes.

If you have any suggestions regarding the program or any feature kindly communicate with the committee at once. More definite notice will be given later and requests for entries will be asked for in advance on a definite date to be announced later.

Scouts from outside of Essex County will be welcomed and admitted free and may also join in the afternoon Grand Parade.

Cat Mothers Foxes

Seattle, Wash.—Snowball, a cat owned by G. H. Jensen of the Silver Fox farm near Tacoma, is playing the role of mother to two baby foxes. When the mother of the foxes showed a lack of maternal interest and left them Snowball adopted the twins with good success.
